SCHEDULE "B."

This indenture made (in duplicate) this first day of December, in the year of our Lord one thousand nine hundred and thirteen.

Between

The Hydro-Electric Power Commission of Ontario, hereinafter called the "Commission," party of the first part;

and

The Municipal Corporation of the City of St. Catharines, hereinafter called the "Corporation," party of the second part.

Whereas pursuant to an Act to provide for the transmission of electrical power to municipalities the Corporation applied to the Commission for a supply of power and the electors of the Corporation assented to a by-law authorizing the Corporation to enter into a contract with the Commission for such power;

1. Now therefore this indenture witnesseth that in consideration of the premises and of the agreements of the Corporation set forth, subject to the provisions of said Act and amendments and of the said contract, the Commission agrees with the Corporation:—

(a) To reserve and deliver at the earliest possible date 2,000 h.p. of electrical power to the Corporation.

(b) At the expiration of thirty (30) days' notice in writing which may be given by the Corporation from time to time during the continuance of this agreement, to reserve and deliver to the Corporation additional electrical power when called for in blocks of 100 h.p. each.

(c) To use at all times first class, modern, standard, commercial apparatus and plant, and to exercise due skill and diligence so as to secure the most perfect operation of the plant and apparatus of the Corporation.

(d) Power shall be delivered to the Corporation at approximately 26,400 or 12,000 volts.

2. In consideration of the premises and of the covenants and agreements herein set forth, the Corporation agrees with the Commission:—

(a) To use all diligence by every lawful means in its power to prepare for the receipt and use of the power dealt with by this agreement, so as to be able to give notice as specified in paragraph 1 (a).

(b) Subject to the provisions of paragraph 2 (h) herein to pay the Commission the cost price per h.p. per annum to the Commission for all power taken.

(c) Further to pay annually interest at the rate of four per cent. (4%) per annum on moneys expended, if any, by the Commission on capital account for the construction of necessary works, if any, required to supply said power for the said Corporation.

(d) Also to pay an annual part of the cost of construction of the said works so as to form in 30 years a sinking fund for the retirement of any securities issued by the Province of Ontario in connection herewith.

(e) To pay any cost of operating, maintaining, repairing, renewing and insuring the said works.

(f)

(f) The amounts payable in accordance with clauses 2 (b) and (c) shall be paid in twelve monthly payments, in gold coin of the present standard of weight and fineness at the office of the Commission at Toronto, and bills shall be rendered by the Commission on or before the 5th day and paid by the Corporation on or before the 15th day of each month. If any bill remains unpaid for fifteen days, the Commission may, in addition to all other remedies and without notice, discontinue the supply of power to the Corporation until said bill is paid. No such discontinuance shall relieve the Corporation from the performance of the covenants, provisoes and conditions herein contained. All payments in arrears shall bear interest at the legal rate.

(g) To take electric power exclusively from the Commission during the continuance of this agreement.

(h) To pay for three-fourths of the power ordered from time to time by the Corporation and held in reserve for it as herein provided, whether it takes the same or not. When the greatest amount of power taken for any twenty consecutive minutes during any month shall exceed during the twenty consecutive minutes three-fourths of the amount ordered by the Corporation and held in reserve, then the Corporation shall pay for this greater amount during the entire month.

If the Corporation during any month takes more than the amount of power ordered and held in reserve for it for twenty consecutive minutes, the Corporation shall pay for this greater amount of power during the entire month. The taking of such excess shall thereafter constitute an obligation on the part of the Corporation to pay for and on the part of the Commission to hold in reserve an additional block of power in accordance with the terms and conditions of this contract.

When the power factor of the greatest amount of power taken for said twenty consecutive minutes falls below 90 per cent., the Corporation shall pay for 90 per cent. of said power divided by the power factor.

(i) To use at all times first class, modern, standard commercial apparatus and plant to be approved by the Commission.

(j) To exercise all due skill and diligence as to secure the most perfect operation of the plant and apparatus of the Commission and the Corporation.

3. This agreement shall remain in force for thirty years from the date thereof.

4. (a) The power so taken shall be measured at the 12,000 or 24,000 volt side of the step-down transformers in the sub-station in the Corporation by graphic recording curve drawing meters, subject to test as to accuracy by either party hereto.

(b) The maintenance by the Commission of approximately the agreed voltage at approximately the agreed frequency at the sub-station in the limits of the Corporation shall constitute the supply of all power involved herein and the fulfillment of all operating obligations hereunder; and when voltage and frequency are so maintained, the amount of the power, its fluctuations, load factor, power factor, distribution as to phases, and all other electric characteristics and qualities are under the sole control of the Corporation, their agents, customers, apparatus, appliances and circuits.

5. The engineers of the Commission, or one or more of them, or any other person or persons appointed for this purpose by the Commission, shall have the right from time to time during the continu-

ance of this agreement to inspect the apparatus, plant and property of the Corporation and take records at all reasonable hours.

6. In case the Commission should at any time or times be prevented from supplying said power, or any part thereof, or in case the Corporation shall at any time be prevented from taking said power, or any part thereof, by strike, lock-out, fire, invasion, explosion, act of God, or the King's enemies, or any other cause reasonably beyond their control, then the Commission shall not be bound to deliver such power during such times, and the Corporation shall not be bound to pay the price of said power during such time, but as soon as the cause of such interruption is removed, the Commission shall without any delay supply said power as aforesaid, and the Corporation shall take the same and shall be prompt and diligent in removing and overcoming such cause or causes of interruption.

7. If, and so often as, any interruption shall occur in the service of the Company due to any cause or causes, other than those provided for by the next preceding paragraph hereof, the Commission shall recover and pay to the Corporation as liquidated and ascertained damages and not by way of penalty, as follows:—

For any interruption less than one hour double the amount payable for power which should have been supplied during the time of such interruption; and for any interruption of one hour or more, the amount payable for the power which should have been supplied during the time of such interruption and twelve times the last mentioned amount in addition thereto, and all moneys payable under this paragraph when the amount thereof is settled between the Commission and the Company, may be deducted from any moneys payable by the Corporation to the Commission, but such right of deduction shall not in any case delay the said monthly payments.

8. The Commission shall at least annually adjust and apportion the amounts payable by municipal corporations for such power and such interest, sinking fund, line loss, and cost of operating, maintaining, repairing, renewing and insuring the line and works.

9. If at any time any other municipal corporation, or pursuant to said Act, any railway or distributing company, or any other corporation or person, applies to the Commission for a supply of power, the Commission shall notify the applicant and the Corporation in writing, of a time and place and hour and hear all representations that may be made as to the terms and conditions for such supply.

Without discrimination in favor of the applicants as to the price to be paid, for equal quantities of power, the Commission may supply power upon such terms and conditions as may, having regard to the risk and expense incurred, and paid, and to be paid by the Corporation, appear equitable to the Commission, and are approved by the Lieutenant-Governor in Council.

No such application shall be granted if the said line is not adequate for such supply, or if the supply of the Corporation will be thereby injuriously affected, and no power shall be supplied within the limits of a municipal corporation taking power from the Commission at the time of such application without the written consent of such Corporation.

In determining the quantity of power supplied to a municipal corporation, the quantity supplied by the Commission within the limits of the Corporation to any applicant, other than a municipal corporation, shall be computed as part of the quantity supplied to such Corporation, but such Corporation shall not be liable to pay for the power so supplied, or otherwise in respect thereof. In order

to prevent discrimination by the municipal corporation, no power shall be supplied by the municipal corporation to any railway or distributing company without the written consent of the Commission, but the Corporation may sell power to any person or persons or manufacturing companies inside the limits of the corporation, but such power shall not be sold for less than the cost and without discrimination as regards price and quantity.

10. In case any municipal corporation, or any person, firm or corporation which shall contract with the Commission or with any municipal corporation for a supply of power furnished to the Commission by the Power Company shall suffer damages by the act or neglect of the Power Company, and such municipal corporation, person, firm or corporation would, if the Power Company had made the said contracts directly with them, have had a right to recover such damages or commence any proceedings or any other remedy, the Commission shall be entitled to commence any such proceedings to bring such action for or on behalf of such municipal corporation, person, firm or corporation, and notwithstanding any acts, decision or rule of law to the contrary, the Commission shall be entitled to all the rights and remedies of such municipal corporation, person, firm or corporation, including the right to recover such damages, but no action shall be brought by the Commission until such municipal corporation, person, firm or corporation shall have agreed with the Commission to pay any costs that may be adjudged to be paid if such proceedings or action is unsuccessful. The rights and remedies of any such municipal corporation, person, firm or corporation shall not be hereby prejudiced.

11. It is hereby declared that the Commission is to be a trustee of all property held by the Commission under this agreement for the corporations and other municipal corporations supplied by the Commission, but the Commission shall be entitled to a lien upon said property for all moneys expended by the Commission under this agreement and not repaid. At the expiration of this Agreement the Commission shall determine and adjust the rights of the corporations and other municipal corporations, supplied by the Commission, having regard to the amounts paid by them, respectively, under the terms of this agreement, and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor in Council.

12. Each of the corporations agrees with the other:—

(a) To take electric power exclusively from the Commission during the continuance of this agreement, subject to the provisos above set forth in paragraph 2 (b).

(b) To co-operate, by all means in its power, at all times, with the Commission, to increase the quantity of power required from the Commission, and in all other respects to carry out the objects of this agreement and of the said Act.

13. If differences arise between corporations to whom the Commission is supplying power, the Commission may upon application fix a time and place to hear all representations that may be made by the parties, and the Commission shall, in a summary manner when possible, adjust such differences and such adjustment shall be final. The Commission shall have all the powers that may be conferred upon a Commissioner appointed under *The Act respecting Enquiries Concerning Public Matters*.

14. If such differences arise between the Corporation and the Commission, the Lieutenant-Governor in Council may, upon application, fix a time and place to hear all representations that may be made by the parties, and the Lieutenant-Governor in Council shall, in a summary manner, when possible, adjust such differences and

such

such adjustment shall be final. The Lieutenant-Governor in Council shall have all the powers that may be conferred upon a Commission appointed under *The Act respecting Enquiries Concerning Public Matters*.

15. This agreement shall extend to, be binding upon and enure to the benefit of the successors and assigns of the parties hereto.

In witness whereof the Commission and the Corporation have respectively affixed their corporate seals and the hands of their proper officers.

2. In consideration of the premises and of the agreements herein set forth, the Corporation agrees with the Commission:—

(a) To use all diligence by every lawful means in its power to prepare for the receipt and use of the power dealt with by this agreement so as to be able to receive power when the Commission is ready to deliver same.

(b) To pay annually, interest at 4 per cent. per annum upon the Corporation's proportionate part, (based on the quantity of electrical energy or power taken) of all moneys expended by the Commission on capital account for the acquiring of properties and rights, the acquiring and construction of generating plants, transformer stations, transmission lines, distributing stations, and other works necessary for the delivery of said electrical energy or power to the Corporation under the terms of this contract.

Also to pay an annual sinking fund instalment of such amount as to form at the end of 30 years, with accrued interest, a sinking fund sufficient to repay the Corporation's proportionate part, based as aforesaid, of all moneys advanced by the Province of Ontario, for the acquiring of properties and rights, the acquiring and construction of generating plants, transformer stations, transmission lines, distributing stations and other work necessary for the delivery of said electrical energy or power delivered to the Corporation under the terms of this contract.

If any bill remain unpaid for fifteen days, the Commission may, in addition to all other remedies and without notice, discontinue the supply of power to the Corporation until said bill is paid. No such discontinuance shall relieve the Corporation from the performance of the covenants, provisoes and conditions herein contained. All payments in arrears shall bear interest at the legal rate.

(d) To take electric power exclusively from the Commission during the continuance of this agreement.

(e) To co-operate by all means in its power at all times with the Commission to increase the quantity of power required from the Commission, and in all other respects to carry out the objects of this agreement, and of the said act.

When the greatest amount of power taken for any twenty consecutive minutes during any month shall exceed the twenty consecutive minutes three-fourths of the amount ordered by the Corporation and held in reserve, then the Corporation shall pay for this greater amount during the entire month.

(g)

(g) If the Corporation during any month takes more than the amount of power ordered and held in reserve for twenty consecutive minutes, the taking of such excess shall thereafter constitute an obligation on the part of the Corporation to pay for and on the part of the Commission to hold in reserve an additional block of power in accordance with the terms and conditions of this contract.

(h) When the power factor of the greatest amount of power taken for said twenty consecutive minutes falls below 90 per cent. the Corporation shall pay for 90 per cent. of said power divided by the power factor.

(i) To use at all times first-class, modern, standard, commercial apparatus and plant, approved by the Commission.

(j) To exercise all due skill and diligence so as to secure satisfactory operation of the plant and apparatus of the Commission and the Corporation.

6. The Commission shall at least annually adjust and apportion the amount or amounts payable by the Municipal Corporation or Corporations for such power and such interest, sinking fund, lost power, cost of generating, operating, maintaining, repairing, renewing and insuring said works.

7. If at any time any other Municipal Corporation or pursuant to said Act, any railway or distributing Company or any other Corporation or person, applies to the Commission for a supply of power, the Commission shall notify the applicant and the Corporation in writing, of such a time and place and hear all representations that may be made as to the terms and conditions for such supply.

Without discrimination in favour of the applicants as to the price to be paid, for equal quantity of power, the Commission may supply power upon such terms and conditions as may, having re-

SCHEDULE "D."

This indenture made in duplicate the twelfth day of February in the year of our Lord one thousand nine hundred and fourteen.

Between

The Hydro-Electric Power Commission of Ontario, hereinafter called the "Commission," party of the first part,

and

The Municipal Corporation of the Village of Creemore, hereinafter called the "Corporation," party of the second part.

Whereas, pursuant to *An Act to Provide for Transmission of Electrical Power to Municipalities*, the Corporation applied to the Commission for a supply of power, and the Commission have entered into a contract with the Simcoe Railway & Power Co., and the electors of the Corporation assented to a by-law authorizing the Corporation to enter into a contract with the Commission for such power.

1. Now, therefore, this indenture witnesseth, that in consideration of the premises and of the agreements of the Corporation herein set forth, subject to the provisions of said Act and of the said contract, the Commission agrees with the Corporation:—

(a) To reserve and deliver at the earliest possible date 75 h.p. or more of electric power to the Corporation.

(b) At the expiration of thirty days' notice in writing, which may be given by the Corporation from time to time, during the continuance of this agreement, to reserve and deliver to the Corporation additional electric power when called for in blocks of 25 h.p. each, up to the limit of the capacity of the Power Company.

(c) To use at all times first-class, modern, standard commercial apparatus and plant, and to exercise all due skill and diligence so as to secure satisfactory operation of the plant and apparatus of the Corporation.

(d) The power shall be delivered to the Corporation at approximately 2,200 volts and at approximately 60 cycles per second.

2. In consideration of the premises and of the agreements herein set forth, the Corporation agrees with the Commission:—

(a) To use all diligence by every lawful means in its power to prepare for the receipt and use of the power dealt with by this agreement so as to be able to receive power when the Commission is ready to deliver same.

(b) Subject to the provisions of paragraph 2 (f) hereof, to pay the Commission the following prices: \$20.00 per h.p. per annum for all power taken until the demands of the Commission on the Power Company shall equal or exceed 500 h.p.

When the demand of the Commission on the Power Company shall have increased to 500 h.p. to pay \$19.00 per h.p. per annum for all or any proportion thereof taken by the Corporation.

When the demand of the Commission on the Power Company shall have increased to 1,000 h.p. to pay \$18.00 per h.p. per annum for all or any proportion thereof taken by the Corporation.

When the demand of the Commission on the Power Company shall have increased to 1,500 h.p. to pay \$16.50 per h.p. per annum for all or any proportion thereof taken by the Corporation.

Nothing

Nothing herein contained shall bind the Commission to supply power on the demand of the Corporation after the demand of the Commission on the Power Company exceeds 1,500 h.p., unless the Power Company has power available or capable of development.

(c) To pay in addition annually, interest at 4 per cent. per annum upon moneys expended by the Commission on capital account for the construction of the transmission line, the transformer station equipment, and the other necessary works required for the delivery of power and transforming it from 22,000 to 2,200 volts.

Also to pay an annual part of the cost of the construction of said line, station and works so as to form in 30 years a sinking fund for the repayment of the moneys advanced by the Province of Ontario, in connection with this work.

Also to pay the cost of operating, maintaining, repairing, renewing and insuring the said line, station and works.

(d) The amounts payable under this contract shall be paid in twelve monthly payments, in gold coin of the present standard of weight and fineness, at the office of the Commission at Toronto, and bills shall be rendered by the Commission on or before the 5th day and paid by the Corporation on or before the 15th day of each month. If any bill remains unpaid for fifteen days, the Commission may, in addition to all other remedies and without notice, discontinue the supply of power to the Corporation until said bill is paid. No such discontinuance shall relieve the Corporation from the performance of the covenants, provisoes and conditions herein contained. All payments in arrears shall bear interest at the legal rate.

(e) To take electric power exclusively from the Commission during the continuance of this agreement.

(f) To pay for three-fourths of the power ordered from time to time by the Corporation and held in reserve for it as herein provided whether it takes the same or not. When the greatest amount of power taken for any twenty consecutive minutes during any month shall exceed during the twenty consecutive minutes three-fourths of the amount ordered by the Corporation and held in reserve, then the Corporation shall pay for this greater amount during the entire month.

If the Corporation during any month takes more than the amount of power ordered and held in reserve for it for twenty consecutive minutes, the taking of such excess shall therefore constitute an obligation on the part of the Corporation to pay for, and on the part of the Commission to hold in reserve an additional block of power in accordance with the terms and conditions of this contract.

When the power factor of the greatest amount of power taken for said twenty consecutive minutes falls below 90 per cent. the Corporation shall pay for 90 per cent. of said power divided by the power factor.

(g) To use at all times first-class, modern, standard commercial apparatus and plant, approved by the Commission.

(h) To exercise all due skill and diligence so as to secure satisfactory operation of the plant and apparatus of the Commission and the Corporation.

(i) To co-operate, by all means in its power, at all times, with the Commission, to increase the quantity of power required from the Commission, and in all other respects to carry out the objects of this agreement and of the said Act.

3. This agreement shall remain in force for ten years from the date of the first delivery of power under this contract. The Cor-

poration

poration may, at its option, continue this agreement for one or two further consecutive terms, the first of these two additional terms being of five years' duration, and the second of such length that the expiry thereof shall fall on the 10th day of September, 1929.

(a) Provided, however, that in the event of the Commission being in a position to furnish power either by a further agreement with the Simcoe Railway & Power Company or otherwise, the Corporation may, at its option, continue this agreement for a further term of twelve years' duration.

(b) The Corporation may exercise the first of these options by giving notice in writing of its intention to continue this agreement for the second term of five years at least two years before the expiration of the first term of ten years.

(c) The Corporation may exercise the second of these options by giving notice to the Commission in writing of its intention to continue this agreement for the third term until the expiry days of September 10th, 1929, at least two years before the expiration of the second term of five years.

(d) The Corporation may, subject to the conditions set out in paragraph 3 (a) exercise the further option therein mentioned by giving the Commission notice in writing of its intention to continue this agreement for the further term of twelve years at least two years before the expiration of the terms falling on the 10th day of September, 1929.

4. The power shall be approximately 2,200 volts, 60 cycles, 3 phase, alternating commercially continuous twenty-four hour power every day in the year except as provided herein, and shall be delivered and measured by the Commission to the Corporation at the 2,200 volt terminals of the step-down transformers in the substation at present located in the Municipality of Stayner and serving the district in which the Corporation is located.

(a) That the meters with their series or potential transformers may be connected to the high-tension side or low-tension side of the transformers, or some connected to one side and some connected to the other, as the Commission may elect. That whenever connected at other than the point of measurement their readings shall be subject to a correction and shall be corrected to give a reading such as would be obtained by instruments as if connected at the point of measurement. That such corrections shall be based upon tests made upon the step-down transformers and transmission lines by the Commission, or any other tests upon them acceptable to the Commission as to the efficiency, regulation, or any other constants of the transformers and the transmission lines necessary for said correction, but that such tests, when made by the Commission, are to be made in the presence of the representatives or representative of the customer if it so desires.

(b) The maintenance by the Commission of approximately the agreed voltage at approximately the agreed frequency at the substation serving the district in which the Corporation is located, shall constitute the supply of all power involved herein, and the fulfillment of all operating obligations hereunder; and when voltage and frequency are so maintained, the amount of power, its fluctuations, load factor, power factor, distribution as to phases, and all other electric characteristics and qualities are under the sole control of the Corporation, their agents, customers, apparatus, appliances and circuits.

5. The engineers of the Commission, or one or more of them, or any other person or persons appointed for this purpose by the Commission, shall have the right from time to time during the continuance of this agreement to inspect the apparatus, plant and property of the Corporation and take records at all reasonable hours.

6. In case the Commission should at any time or times be prevented from supplying said power, or any part thereof, or in case the Corporation shall at any time be prevented from taking said power, or any part thereof, by strikes, lock-out, fire, invasion, explosion, act of God, or the King's enemies, or any other cause reasonably beyond their control, then the Commission shall not be bound to deliver such power during such times, and the Corporation shall not be bound to pay the price of said power during such time, but as soon as the cause of such interruption is removed, the Commission shall without any delay supply said power as aforesaid, and the Corporation shall take the same and shall be prompt and diligent in removing and overcoming such cause or causes of interruption.

7. If, and so often as, any interruption shall occur in the service of the Power Company, due to any cause or causes other than those provided for by the next preceding paragraph herein, the Commission shall recover and pay to the Corporation as liquidated and ascertained damages, and not by way of penalty, as follows:—

For any interruption of less than one hour double the amount payable for power which should have been supplied during the time of such interruption; and for any interruption of one hour or more the amount payable for the power which should have been delivered during the time of such interruption, and six times the last mentioned amount in addition thereto, and all moneys payable under this paragraph, when the amount thereof is settled between the Commission and the Company, may be deducted from any money payable by the Corporation to the Commission, but such right of deduction shall not in any case delay the said monthly payments.

8. If at any time any other Municipal Corporation, or pursuant to said Act, any railway or distributing company, or any other corporation or person, applies to the Commission for a supply of power, the Commission shall notify the applicant and the Corporation, in writing, of a time and place and hear all representations that may be made as to the terms and conditions of such supply.

Without discrimination in favor of the applicants as to the price to be paid, for equal quantity of power, the Commission may supply power upon such terms and conditions as may, having regard to the risk and expenses incurred, and paid, and to be paid by the Corporation, appear equitable to the Commission, and are approved by the Lieutenant-Governor in Council.

No such application shall be granted if the said line is not adequate for such supply, or if the supply of the Corporation will be thereby injuriously affected, and no power shall be supplied within the limits of a Municipal Corporation taking power from the Commission at the time of such application without the written consent of such Corporation.

In determining the quantity of power supplied to a Municipal Corporation, the quantity supplied by the Commission within the limits of the Corporation to any applicant, other than a municipal corporation, shall be computed as part of the quantity supplied to such corporation, but such corporation shall not be liable to pay for the power so supplied, or otherwise in respect thereof. In order to prevent discrimination by the municipal corporation, no power shall be supplied by the municipal corporation to any railway or distributing company without the written consent of the Commission, but the Corporation may sell power to any person or persons or manufacturing companies inside the limits of the Corporation, but such power shall not be sold for less than the cost and without discrimination as regards price and quantity.

9. In case any municipal corporation, or any person, firm or corporation which shall contract with the Commission or with any

municipal corporation for a supply of power furnished to the Commission by the Power Company shall suffer damages by the act or neglect of the Power Company, and such municipal corporation, person, firm or corporation would, if the Power Company had made the said contracts directly with them, have had a right to recover such damages or commence any proceedings or any other remedy, the Commission shall be entitled to commence any such proceedings or bring such action for or on behalf of such municipal corporation, person, firm or corporation, and notwithstanding any acts, decision or rule of law to the contrary, the Commission shall be entitled to all the rights and remedies of such municipal corporation, person, firm or corporation, including the right to recover such damages, but no action shall be brought by the Commission until such municipal corporation, person, firm or corporation shall have agreed with the Commission to pay any costs that may be adjudged to be paid if such proceedings or action is unsuccessful. The rights and remedies of any such municipal corporation, person, firm or corporation shall not be hereby prejudiced.

10. It is hereby declared that the Commission is to be a trustee of all property held by the Commission under this agreement for the Corporation and other municipal corporations supplied by the Commission, but the Commission shall be entitled to a lien upon said property for all moneys expended by the Commission under this agreement and not repaid. At the expiration of this agreement the Commission shall determine and adjust the rights of the Corporations and other municipal corporations, supplied by the Commission, having regard to the amounts paid by them respectively, under the terms of this agreement, and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor in Council.

11. If differences arise between corporations to whom the Commission is supplying power, the Commission may upon application fix a time and place to hear all representations that may be made by the parties and the Commission shall, in a summary manner, when possible, adjust such differences and such adjustment shall be final. The Commission shall have all the powers that may be conferred upon a Commissioner appointed under the *Act respecting Enquiries Concerning Public Matters*.

12. If differences arise between the Corporation and the Commission, the Lieutenant-Governor in Council may, upon application, fix a time and place to hear all representations that may be made by the parties, and the Lieutenant-Governor in Council shall, in a summary manner, when possible, adjust such differences, and such adjustment shall be final. The Lieutenant-Governor in Council shall have all the powers that may be conferred upon a Commissioner appointed under the *Act respecting Enquiries Concerning Public Matters*.

13. This agreement shall extend to, be binding upon, and enure to the benefit of the successors and assigns of the parties hereto.

In witness whereof the Commission and Corporation have respectively affixed their corporate seals and the hands of their proper officers.

SCHEDULE

SCHEDULE "E."

This Indenture made this first day of November, A.D. 1914.

Between

The Hydro-Electric Power Commission of Ontario, acting herein on its own behalf and with the approval of the Lieutenant-Governor in Council (hereinafter called the Commission), Party of the First Part,

and

The Municipal Corporation of the Police Village of Williamsburg (hereinafter called the Corporation), Party of the Second Part.

Whereas pursuant to "An Act to provide for transmission of electrical power to Municipalities," and the amendments thereto, the Corporation applied to the Commission to transmit and supply such power, and the Commission has entered into contracts with a company or companies for the supply of such power at the prices set forth in the schedule, hereto attached, and the Commission has furnished the Corporation with estimates, as shown in the schedule of the total cost of such power, and the electors of the Corporation assented to by-laws authorizing the Corporation to enter into a contract with the Commission for such power, and the Commission have estimated the line loss and the cost to construct, operate, maintain, repair, renew and insure a line to transmit such power to the Corporation, and have apportioned the part of such cost to be paid by each corporation as shown in said schedule.

Now therefore this Indenture witnesseth that in consideration of the premises and of the agreements of the Corporation herein set forth, subject to the provisions of said Act and the amendments thereto, and of the said contracts subject to any variations thereof by the Corporation, the Commission agrees with the Corporation respectively:—

1. (a) To construct a line to transmit the quantities of electric power, shown in column 2 of the said schedule, to the Corporation shown in column 1 respectively.

(b) On the 15th day of May, 1915, or on any earlier day on which the Commission shall be prepared to supply said power in quantities set forth in column 2 of said schedule to the Corporation within the limits thereof, ready for distribution at approximately the number of volts set forth in column 4 of said schedule, and approximately 60 cycles per second frequency.

(c) At the expiration of three months' written notice, which may be given by the Corporation from time to time during the continuance of this agreement, to supply from time to time to the Corporation in blocks of not less than 10 horse power each, additional power until the total amount so supplied shall amount to 15,000 horse power, or such further amount as the Commission may be able and willing to supply.

(d) To use at all times first-class, modern, standard, commercial apparatus and plant and to exercise all due skill and diligence so as to secure the most perfect operation of the plant and apparatus of the Corporation.

In consideration of the premises and of the agreements herein set forth each of the corporations, for itself, and not one for the other, agrees with the Commission:—

2. (a) Subject to the provisions of paragraph 2 (g) hereof, to pay to the Commission for the quantities of power shown in column 2 of said schedule to be supplied as aforesaid from the date when the Commission notifies the Corporation that it is ready to supply

such

such power, and for all additional power held in reserve upon any of the above mentioned notices from the respective dates thereof until the termination of this Agreement, the price set forth in column 3 of said schedule in twelve monthly payments, in gold coin of the present standard of weight and fineness, and bills shall be rendered by the Commission on or before the fourth day and paid by the Corporation on or before the fifteenth day of each month. If any bill remains unpaid for 15 days, the Commission may, in addition to all other remedies and without notice, discontinue the supply of such power to the Corporation in default until said bill is paid. No such discontinuance shall relieve the Corporation in default from the performance of the covenants, provisoes, and conditions herein contained. All payments in arrears shall bear interest at the legal rate.

(b) To take electric power exclusively from the Commission during the continuance of this agreement; provided, if the Commission is unable to supply said power as quickly as required, the Corporation may obtain the supply otherwise until the Commission has provided such supply, thereupon the Corporation shall immediately take from the Commission; and the Corporation may generate, store or accumulate electric power for emergencies, or to keep down the peak load of the power taken from the Commission; and nothing herein contained shall affect existing contracts between the Corporation and other parties for a supply of electric power, but the Corporation shall determine said contracts at the earliest possible date.

(c) To pay, annually, interest at four per cent. per annum upon its proportionate part of the moneys expended by the Commission on capital account for the construction of the said line, transformer stations and other necessary works, shown, respectively, in column 6 of said schedule, subject to adjustment under paragraph 9.

(d) To pay an annual sum for its proportionate part of the cost of the construction of said line, stations and works, shown, respectively, in column 6 of said schedule, subject to adjustment under paragraph 9, so as to form in thirty years a sinking fund for the retirement of the securities to be issued by the Province of Ontario.

(e) To bear its proportionate part of the line loss and pay its proportionate part of the cost to operate, maintain, repair, renew and insure the said line, stations and works, shown, respectively, in column 7 of said schedule, subject to adjustment under paragraph 9.

(f) To keep, observe and perform the covenants, provisoes and conditions set forth in said contracts, intended by the Commission and the Company to be kept and observed and performed.

(g) To pay as a minimum for three-fourths of the power to be supplied at said date or of the power held in reserve upon any of the said notices, whether the said power is taken or not; and when the greatest amount of power taken for twenty consecutive minutes in any month shall exceed during such twenty minutes three-fourths of the amount to be supplied and held in reserve to pay for this greater amount during that entire month; the amount payable for a month being one-twelfth part of the annual rate applicable to the horse power in question. When the power factor of the greatest amount of power taken for said twenty minutes falls below 90 per cent., the Corporation shall pay for 90 per cent. of said power divided by the power factor.

(h) To take no more power than the amount to be supplied and held in reserve at said date and upon said notices, as per paragraph 1 (c).

(i) To use at all times first-class, modern, standard, commercial apparatus and plant to be approved by the Commission.

(j) To exercise all due skill and diligence so as to secure the most perfect operation of the plant and apparatus of the Commission and the Company.

3. If, as herein provided, the said contracts are continued until nineteen hundred and forty-two (1942) this agreement shall remain in force until that date.

4. (a) Said power shall be three phase, alternating, commercial continuous twenty-four hour power every day of the year, except as provided in paragraph 6 hereof, and shall be measured by curve-drawing meters, subject to test as to accuracy by either party hereto.

(b) The maintenance by the Commission of approximately the agreed voltage at approximately the agreed frequency at the point of delivery to the Corporation shall constitute the supply and the holding in reserve of all power involved herein, and the fulfilment of all operating obligations hereunder; the amount of the power, its fluctuations, load factor, power factor, distribution as to phases, and all other electric characteristics and qualities being under the sole control of the Corporation, its agents, customers, apparatus, appliances and circuits.

5. The engineers of the Commission, or one or more of them or any other person or persons appointed for this purpose by the Commission, shall have the right from time to time during the continuance of this agreement to inspect the apparatus, plant and property of the Corporation, and take records at all reasonable times on giving to the Corporation six hours' notice of the intention to make such inspection. The Corporation shall have a like right on giving a like notice to inspect the apparatus, plant and property of the Commission.

6. In case the Commission or the Company shall at any time or times be prevented from supplying said power, or any part thereof, or in case the Corporation shall at any time be prevented from taking said power, or any part thereof, by strike, lock-out, riot, fire, invasions, explosion, act of God or the King's enemies, or any other cause reasonably beyond their control, then the Commission shall not be bound to deliver such power during such time and the Corporation shall not be bound to pay the price of said power at the point of delivery by the Company during such time, but the Corporation shall continue to make all other payment, but as soon as the cause of such interruption is removed the Commission shall without any delay supply said power as aforesaid, and the Corporation shall take the same and each of the parties hereto shall be prompt and diligent in removing and overcoming such cause or causes of interruption.

7. If, and so often as, any interruption shall occur in the service of the Company due to any cause or causes other than those provided for by the next preceding paragraph hereof, the Commission shall pay to the Corporation as liquidated and ascertained damages, and not by way of penalty, their respective proportionate shares of whatever sum is payable to the Commission by reason of such interruption; and when the amount thereof has been settled, such sum may be deducted from any moneys payable by the Corporation to the Commission, but such right of deduction shall not in any case delay the said monthly payments, nor shall the Commission be subject to any other liability for any non-delivery.

8. In case any municipal corporation, or any person, firm or corporation, which shall contract with the Commission or with any municipal corporation for a supply of power furnished to the Commission by the Company, shall suffer damages by the act or neglect of the Company, and such municipal corporation, person, firm or corporation would, if the Company had made the said contracts directly with them, have had a right to recover such damages or commence any proceedings or any other remedy, the Commission

shall

shall be entitled to commence any such proceedings or bring such action for or on behalf of such municipal corporation, person, firm or corporation, and notwithstanding any Statute, decision or rule of law to the contrary, the Commission shall be entitled to all the rights and remedies of such municipal corporation, person, firm or corporation, including the right to recover such damages, but no action shall be brought by the Commission until such municipal corporation, person, firm or corporation shall have agreed with the Commission to pay any costs that may be adjudged to be paid if such proceedings or action is unsuccessful. The rights and remedies of any such municipal corporation, person, firm or corporation shall not be hereby prejudiced.

9. The Commission shall at least annually adjust and apportion the amounts payable by municipal corporations for such power and such interest, sinking fund, line loss, and cost of operating, maintaining, repairing, renewing, and insuring the line and works.

10. (a) If at any time any other municipal corporation, or, pursuant to said Act, any railway or distributing company or any other corporation or person, applies to the Commission for a supply of power, the Commission shall notify the applicant and the corporation, party hereto, in writing, of a time and place and hear all representations that may be made as to the terms and conditions for such supply.

(b) Without discrimination in favor of the applicants as to the price to be paid, for equal quantities of power, the Commission may supply power upon such terms and conditions as may, having regard to the risk and expense incurred, and paid, and to be paid by the Corporation, party hereto, appear equitable to the Commission, and are approved by the Lieutenant-Governor in Council.

(c) No such application shall be granted if the said line is not adequate for such supply, or if the supply of the Corporation, party hereto, will be thereby injuriously affected, and no power shall be supplied within the limits of a municipal corporation taking power from the Commission at the time of such application, without the written consent of such corporation.

(d) In determining the quantity of power supplied to a municipal corporation, the quantity supplied by the Commission within the limits of the Corporation to any applicant, other than a municipal corporation, shall be computed as part of the quantity supplied to such corporation, but such corporation shall not be liable to pay for the power so supplied, by any municipal corporation, to any railway or distributing company, without the written consent of the Commission.

11. It is hereby declared that the Commission is to be a trustee of all property held by the Commission under this agreement, for the Corporation and other municipal corporations supplied by the Commission, but the Commission shall be entitled to a lien upon said property for all moneys expended by the Commission under this agreement and not repaid. At the expiration of this agreement, the Commission shall determine and adjust the rights of the Corporation and other municipal corporations, supplied by the Commission, having regard to the amounts paid by them, respectively, under the terms of this agreement, and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor in Council.

12. Each of the Corporations agrees with the other:—

(a) To take electric power exclusively from the Commission during the continuance of this agreement, subject to the provisions above set forth in paragraph 2 (b).

(b)

(b) To co-operate, by all means in its power, at all times, with the Commission, to increase the quantity of power required from the Commission, and in all other respects to carry out the objects of this agreement and of the said Act.

13. If differences arise between the Corporations the Commission may upon application fix a time and place to hear all representations that may be made by the parties and the Commission shall, in a summary manner, when possible, adjust such differences, and such adjustment shall be final. The Commission shall have all the powers that may be conferred upon a Commissioner appointed under the Act respecting Enquiries concerning Public Matters.

14. This agreement shall extend to, be binding upon, and enure to the benefit of the successors and assigns of the parties hereto.

In witness whereof the Corporation and the Commission have respectively affixed their corporate seals and the hands of their proper officers.

SCHEDULE "F."

This Indenture, made in duplicate this 12th day of May, in the year of our Lord A.D. 1914,

Between

The Hydro-Electric Power Commission of Ontario, hereinafter called the "Commission," party of the first 'part,

and

The Municipal Corporation of the Township of Grantham, herein called the "Corporation," party of the second part.

Whereas, pursuant to an Act to provide for the transmission of electrical power to municipalities, the Corporation applied to the Commission for a supply of power;

And whereas the Corporation under the provisions of *The Power Commission Act* and amendments thereto, the Power Commission Act of 1911, being *An Act to Provide for the Local Distribution of Electrical Power*, has, at the request of a number of ratepayers (petitioners) applied to the Commission for a supply of electrical power and energy, and has passed a By-law No. 262 to authorize the execution of an agreement therefor;

1. Now therefore this indenture witnesseth that in consideration of the premises and of the agreements of the Corporation set forth, subject to the provisions of said Act and amendments and of the said contract, the Commission agrees with the Corporation:—

(a) To reserve and deliver at earliest possible date 100 h.p. of electrical power to the Corporation.

(b) At the expiration of thirty (30) days' notice in writing which may be given by the Corporation from time to time during the continuance of this agreement, to reserve and deliver to the Corporation additional electrical power as may be required from time to time.

(c) To use at all times first class, modern, standard, commercial apparatus and plant, and to exercise due skill and diligence so as to secure the most perfect operation of the plant and apparatus of the Corporation.

(d) Power shall be delivered to the Corporation at approximately 2,200 or 4,000 volts.

2. In consideration of the premises and of the covenants and agreements herein set forth, the Corporation agrees with the Commission:—

(a) To use all diligence by every lawful means in its power to prepare for the receipt and use of the power dealt with by this agreement, so as to be able to give notice as specified in paragraph 1 (b).

(b) Subject to the provisions of paragraph 2 (h) herein to pay the Commission \$17.00 per h.p. per annum for all power taken.

It is further understood and agreed that the Commission will supply and construct all 2,200 volt lines made necessary by contracts for electric service made between the Corporation and residents or users, within the township, from the Commission's transformer station or stations to the service transformers of the Corporation, and in addition to the cost of power as shown, the Corporation will pay to the Commission interest and sinking fund on a thirty year basis on all capital so invested in 2,200 volt lines, payments to be made in quarterly instalments as provided hereinafter.

(c)

(c) The amounts payable in accordance with clause 2 (b) shall be paid in four quarterly payments, in gold coin of the present standard of weight and fineness, at the office of the Commission at Toronto, and bills shall be rendered by the Commission on or before the 5th day and paid by the Corporation on or before the 15th day of each month. If any bill remains unpaid for fifteen days, the Commission may, in addition to all other remedies and without notice, discontinue the supply of power to the Corporation until said bill is paid. No such discontinuance shall relieve the Corporation from the performance of the covenants, provisos and conditions herein contained. All payments in arrears shall bear interest at six per cent.

(d) To take electric power exclusively from the Commission during the continuance of this agreement.

(e) To pay for three-fourths of the power ordered from time to time by the Corporation and hold in reserve for it as herein provided whether it takes the same or not. When the greatest amount of power taken for any twenty consecutive minutes during any month shall exceed during the twenty consecutive minutes three-fourths of the amount ordered by the Corporation and held in reserve, then the Corporation shall pay for this greater amount during the entire month.

If the Corporation during any month takes more than the amount of power ordered and held in reserve for it for twenty consecutive minutes, the Corporation shall pay for this greater amount of power during the entire month. The taking of such excess shall thereafter constitute an obligation on the part of the Corporation to pay for and on the part of the Commission to hold in reserve an additional block of power in accordance with the terms and conditions of this contract.

When the power factor of the greatest amount of power taken for said twenty consecutive minutes falls below 90 per cent., the Corporation shall pay for 90 per cent. of said power divided by the power factor.

(f) To use at all times first class, modern, standard, commercial apparatus and plant to be approved by the Commission.

(g) To exercise all due skill and diligence so as to secure the most perfect operation of the plant and apparatus of the Commission and the Corporation.

(h) It is hereby declared that the Commission is to be a trustee of all property held by the Commission under this agreement for the Corporation and other municipal corporations supplied by the Commission, but the Commission shall be entitled to a lien upon said property for all moneys expended by the Commission under this agreement and not repaid. At the expiration of this agreement the Commission shall determine and adjust the rights of the Corporations and other municipal corporations supplied by the Commission, having regard to the amounts paid by them, respectively, under the terms of this agreement, and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor in Council.

3. This agreement shall remain in force for thirty years from the date hereof.

4. (a) The power so taken shall be measured at the 4,000 volt side of the step-down transformers in the sub-station in the Corporation by graphic recording curve drawing meters, subject to test as to accuracy by either party hereto.

(b) The maintenance by the Commission of approximately the agreed voltage at approximately the agreed frequency at the sub-station in the limits of the Corporation shall constitute the supply of all power involved herein and the fulfilment

ment of all operating conditions hereunder; and when voltage and frequency are so maintained, the amount of the power, its fluctuations, load factor, power factor, distribution as to phases, and all other electric characteristics and qualities are under the sole control of the Corporation, their agents, customers, apparatus, appliances and circuits.

5. The engineers of the Commission, or one or more of them, or any other person or persons appointed for this purpose by the Commission, shall have the right from time to time during the continuance of this agreement to inspect the apparatus, plant and property of the Corporation and take records at all reasonable hours.

6. In case the Commission should at any time or times be prevented from supplying said power, or any part thereof, or in case the Corporation shall at any time be prevented from taking said power, or any part thereof, by strike, or lock-out, fire, invasion, explosion, act of God, or the King's enemies, or any other cause reasonably beyond their control, then the Commission shall not be bound to deliver such power during such times, and the Corporation shall not be bound to pay the price of said power, during such time, but as soon as the cause of such interruption is removed, the Commission shall without delay supply said power as aforesaid, and the Corporation shall take the same and shall be prompt and diligent in removing and overcoming such cause or causes of interruption.

7. If, and so often as, any interruption shall occur in the service of the Company due to any cause or causes, other than those provided for by the next preceding paragraph hereof, the Commission shall recover and pay to the Corporation as liquidated and ascertained damages and not by way of penalty, as follows:—

For any interruption less than one hour double the amount payable for power which should have been supplied during the time of such interruption; and for any interruption of one hour or more, the amount payable for the power which should have been supplied during the time of such interruption and twelve times the last mentioned amount in addition thereto, and all moneys payable under this paragraph when the amount thereof is settled between the Commission and the Company, may be deducted from any moneys payable by the Corporations to the Commission, but such right of deduction shall not in any case delay the said monthly payments.

8. If at any time any other municipal corporation or, pursuant to said Act, any railway or distributing company, or any other corporation or person, applies to the Commission for a supply of power, the Commission shall notify the applicant and the Corporation in writing of a time and place and hear all representations that may be made as to the terms and conditions for such supply.

Without discrimination in favor of the applicants as to the price to be paid, for equal quantity of power, the Commission may supply power upon such terms and conditions as may, having regard to the risk and expenses incurred, and paid, and to be paid by the Corporation, appear equitable to the Commission, and are approved by the Lieutenant-Governor in Council.

No such application shall be granted if the said line is not adequate for such supply, or if the supply of the Corporation will be thereby injuriously affected, and no power shall be supplied within the limits of a municipal corporation taking power from the Commission at the time of such application without the written consent of such Corporation.

In determining the quantity of power supplied to a municipal corporation, the quantity supplied by the Commission within the limits of the Corporation to any applicant, other than a municipal corporation, shall be computed as part of the quantity supplied to

such

such corporation, but such corporation shall not be liable to pay for the power supplied, or otherwise in respect thereof. In order to prevent discrimination by the Municipal Corporation no power shall be supplied by the Municipal Corporation to any railway or distributing company without the written consent of the Commission, but the Corporation may sell power to any person or persons or manufacturing companies inside the limits of the Corporation, but such power shall not be sold for less than the cost and without discrimination as regards price and quantity.

9. In case any municipal corporation, or any person, firm or corporation which shall contract with the Commission or with any municipal corporation for a supply of power furnished to the Commission by the Power Company, shall suffer damages by the act or neglect of the Power Company, and such municipal corporation, person, firm or corporation would, if the Power Company had made the said contracts directly with them, have had a right to recover such damages or commence any proceedings or any other remedy, the Commission shall be entitled to commence any such proceedings to bring such action for or on behalf of such municipal corporation, person, firm, or corporation, and notwithstanding any acts, decision or rule of law to the contrary, the Commission shall be entitled to all the rights and remedies of such municipal corporation, person, firm or corporation, including the right to recover such damages, but no action shall be brought by the Commission until such municipal corporation, person, firm or corporation shall have agreed with the Commission to pay any costs that may be adjudged to be paid if such proceedings or action is unsuccessful. The rights and remedies of any such municipal corporation, person, firm or corporation shall not be hereby prejudiced.

10. If differences arise between corporations to whom the Commission is supplying power, the Commission may upon application fix a time and place to hear all representations that may be made by the parties, and the Commission shall, in a summary manner when possible, adjust such differences and such adjustment shall be final. The Commission shall have all the powers that may be conferred upon a Commissioner appointed under the Act respecting Enquiries concerning Public Matters.

11. If difference arise between the Corporation and the Commission, the Lieutenant-Governor in Council may, upon application, fix a time and place to hear all representations that may be made by the parties, and the Lieutenant-Governor in Council shall, in a summary manner, when possible, adjust such differences and such adjustment shall be final. The Lieutenant-Governor in Council shall have all the powers that may be conferred upon a Commissioner appointed under the Act respecting Enquiries concerning Public Matters.

12. To co-operate, by all means in its power, at all times, with the Commission, to increase the quantity of power required from the Commission, and in all other respects to carry out the objects of this agreement and of the said Act.

13. This agreement shall extend to, be binding upon and enure to the benefit of the successors and assigns of the parties hereto.

In witness whereof the Commission and the Corporation have respectively affixed their corporate seals and the hands of their proper officers.

The Corporation of the Township of Tay, hereinafter called the "Corporation," of the Second Part.

Whereas, pursuant to "An Act to provide for local distribution of electrical power" known as "The Power Commission Act of 1911," the Corporation of the Township of Tay has, at the request of a number of ratepayers (petitioners), applied to the Commission for the supply of electrical power and energy, and has passed a By-law No. 597, to authorize the execution of an agreement;

Now, therefore, this Indenture witnesseth, that in consideration of the premises and of the agreements of the Corporation herein set forth, subject to the provisions of said Act and of the said contract, the Commission agrees with the Corporation:—

1. (a) To reserve and deliver at the earliest possible date, 100 h.p. or more of electric power to the Corporation at two different points in the Township, known respectively as Waubauskene and Port McNicoll, and to erect sub-stations at both of these points for the purpose of receiving the power and stepping down the power to a voltage suitable for distribution purposes.

(b) At the expiration of thirty days' notice in writing, which may be given by the Corporation from time to time, during the continuance of this agreement, to reserve and deliver to the Corporation additional electric power when called for in blocks of 25 h.p. each up to the limit of the capacity of the Power Company.

(c) To use at all times first-class, modern, standard commercial apparatus and plant, and to exercise all due skill and diligence so as to secure satisfactory operation of the plant and apparatus of the Corporation.

(d) The power shall be delivered to the Corporation at approximately 2,200 volts, and at approximately 60 cycles per second, at both sub-stations hereinbefore mentioned.

2. In consideration of the premises and of the agreements herein set forth, the Corporation agrees with the Commission:—

(a) To use all diligence by every lawful means in its power to prepare for the receipt and use of the power dealt with by this agreement so as to be able to receive power when the Commission is ready to deliver same.

(b) Subject to the provisions of 2 (f) hereof, to pay the Commission the following prices:—\$20.00 per h.p. per annum for all power taken until the demands of the Commission on the Power Company shall equal or exceed 500 h.p.

When the demand of the Commission on the Power Company shall have increased to 500 h.p. to pay \$19.00 per h.p. per annum for all or any proportion thereof taken by the Corporation.

When the demand of the Commission on the Power Company shall have increased to 1,000 h.p. to pay \$18.00 per h.p. per annum for all or any proportion thereof taken by the Corporation.

When

When the demand of the Commission on the Power Company shall have increased to 1,500 h.p. to pay \$16.50 per h.p. per annum for all or any proportion thereof taken by the Corporation.

Nothing herein contained shall bind the Commission to supply power on the demand of the Corporation after the demand of the Commission on the Power Company exceeds 1,500 h.p., unless the Power Company has power available or capable of development.

(c) To pay in addition annually, interest at $4\frac{1}{2}$ per cent. per annum upon the moneys expended by the Commission on capital account for the construction of the two transformer stations and equipment, and any other necessary works required for the delivery of power and transforming it from 22,000 to 2,200 volts.

Also to pay an annual part of the cost of the construction of said sub-stations and works, so as to form in thirty years a sinking fund for the retirement of the moneys advanced by the Province of Ontario in connection with this work.

Also to pay the cost of operating, maintaining, repairing, renewing and insuring the said sub-stations and works.

(d) The amounts payable under this contract shall be paid in twelve monthly payments, in gold coin of the present standard of weight and fineness, at the office of the Commission at Toronto, and bills shall be rendered by the Commission on or before the 5th day and paid by the Corporation on or before the 15th day of each month. If any bill remains unpaid for fifteen days, the Commission may, in addition to all other remedies and without notice, discontinue the supply of power to the Corporation until said bill is paid. No such discontinuance shall relieve the Corporation from the performance of the covenants, provisos and conditions herein contained. All payments in arrears shall bear interest at the legal rate.

(e) To take electric power exclusively from the Commission during the continuance of this agreement.

(f) To pay for three-fourths of the power ordered from time to time by the Corporation and held in reserve, as herein provided, whether it takes the same or not. When the sum of the greatest amounts of power taken for any twenty consecutive minutes at the two locations at which the power is to be delivered during any month shall exceed during the twenty consecutive minutes three-fourths of the amount ordered by the Corporation and held in reserve, then the Corporation shall pay for this greater amount during the entire month, and when this sum exceeds the amount of power ordered and held in reserve for it as aforesaid, the taking of such excess shall thereafter constitute an obligation on the part of the Corporation to pay for, and on the part of the Commission to hold in reserve, an additional block of power in accordance with the terms and conditions of this contract.

When the power factor of the greatest amount of power taken for the said twenty consecutive minutes falls below 90 per cent. the Corporation shall pay for 90 per cent. of said power divided by the power factor, this clause to apply separately to each of the two sub-stations at which the power is delivered.

(g) To use at all times first-class, modern, standard commercial apparatus and plant, approved by the Commission.

(h) To exercise all due skill and diligence so as to secure satisfactory operation of the plant and apparatus of the Commission and the Corporation.

(i) To co-operate, by all means in its power, at all times, with the Commission, to increase the quantity of power required from the Commission, and in all other respects to carry out the objects of this agreement and of the said Act.

3. This Agreement shall remain in force for ten years from the date of the first delivery of power under this contract. The Corporation may, at its option, continue this agreement for one or two further consecutive terms, the first of these two additional terms being of five years' duration, and the second of such length that the expiry thereof shall fall on the 10th day of September, 1929.

(a) Provided, however, that in the event of the Commission being in a position to furnish power either by a further agreement with the Simcoe Railway & Power Company or otherwise, the Corporation may, at its option, continue this agreement for a further term of twelve years' duration.

(b) The Corporation may exercise the first of these options by giving notice in writing of its intention to continue this agreement for the second term of five years at least two years before the expiration of the first term of ten years.

(c) The Corporation may exercise the second of these options by giving notice to the Commission in writing of its intention to continue this agreement for the third term until the expiry day of September 10th, 1929, at least two years before the expiration of the second term of five years.

(d) The Corporation may, subject to the conditions set out in paragraph 3 (a) exercise the further option therein mentioned by giving the Commission notice in writing of its intention to continue this agreement for the further term of twelve years at least two years before the expiration of the terms falling on the 10th day of September, 1929.

4. The power shall be approximately 2,200 volts, 60 cycles, three phase alternating, commercially continuous 24 hour power, every day in the year except as provided herein, and shall be delivered and measured by the Commission to the Corporation at the 2,200 volt terminals of the step-down transformers in the sub-stations located at the two different points in the Township hereinbefore mentioned.

(a) That the meters, with their series or potential transformers, may be connected at either of the two sub-stations, or at both, to the high-tension side or low-tension side of the transformers, or some connected to one side and some connected to the other, as the Commission may elect. That whenever connected at other than the point of measurement their readings shall be subject to a correction and shall be corrected to give a reading such as would be obtained by instruments as if connected at the point of measurement. That such corrections shall be based upon tests made upon the step-down transformers and transmission lines by the Commission, or any other tests upon them acceptable to the Commission as to the efficiency, regulation, or any other constants of the transformers and the transmission lines necessary for said correction, but that such tests, when made by the Commission, are to be made in the presence of the representatives or representative of the customer if it so desires.

(b) The maintenance by the Commission of approximately the agreed voltage at approximately the agreed frequency at both of the sub-stations previously mentioned at which the power is to be delivered, shall constitute the supply of all power involved herein, and the fulfilment of all operating obligations hereunder; and when voltage and frequency are so maintained, the amount of power, its fluctuations, load factor, power factor, distribution as to phases, and all other electric characteristics and qualities are under the sole control of the Corporation, their agents, customers, apparatus, appliances and circuits.

5. The engineers of the Commission, or one or more of them, or any other person or persons appointed for this purpose by the Commission, shall have the right from time to time during the continuance

tinuance of this agreement to inspect the apparatus, plant and property of the Corporation and take records at all reasonable hours.

6. In case the Commission should at any time or times be prevented from supplying said power, or any part thereof, or in case the Corporation shall at any time be prevented from taking said power, or any part thereof, by strikes, lock-out, fire, invasion, explosion, act of God, or the King's enemies, or any other cause reasonably beyond their control, then the Commission shall not be bound to deliver such power during such times, and the Corporation shall not be bound to pay the price of said power during such times, but as soon as the cause of such interruption is removed, the Commission shall without any delay supply said power as aforesaid, and the Corporation shall take the same and shall be prompt and diligent in removing and overcoming such cause or causes of interruption.

7. If, and so often as, any interruption shall occur in the service of the Power Company due to any cause or causes other than those provided for by the next preceding paragraph herein, the Commission shall recover and pay to the Corporation as liquidated and ascertained damages, and not by way of penalty, as follows:—

For any interruption of less than one hour double the amount payable for power which should have been supplied during the time of such interruption; and for any interruption of one hour or more the amount payable for the power which should have been delivered during the time of such interruption, and six times the last mentioned amount in addition thereto, and all moneys payable under this paragraph, when the amount thereof is settled between the Commission and the Company, may be deducted from any money payable by the Corporation to the Commission, but such right of deduction shall not in any case delay the said monthly payments.

8. If at any time any other municipal corporation or pursuant to said Act, any railway or distributing company, or any other corporation or person, applies to the Commission for a supply of power, the Commission shall notify the applicant and the Corporation in writing, of a time and place and hear all representations that may be made as to the terms and conditions of such supply.

Without discrimination in favor of the applicants as to the price to be paid for equal quantity of power, the Commission may supply power upon such terms and conditions as may, having regard to the risk and expense incurred, and paid and to be paid by the Corporation, appear equitable to the Commission, and are approved by the Lieutenant-Governor in Council.

No such application shall be granted if the said line is not adequate for such supply, or if the supply of the Corporation will be thereby injuriously affected, and no power shall be supplied within the limits of a municipal corporation taking power from the Commission at the time of such application without the written consent of such Corporation.

In determining the quantity of power supplied to a municipal corporation, the quantity supplied by the Commission within the limits of the Corporation to any applicant, other than a municipal corporation, shall be computed as part of the quantity supplied to such Corporation, but such Corporation shall not be liable to pay for the power so supplied, or otherwise in respect thereof. In order to prevent discrimination by the municipal corporation, no power shall be supplied by the municipal corporation, to any railway or distributing company without the written consent of the Commission, but the Corporation may sell power to any person or persons or manufacturing companies inside the limits of the Corporation, but such power shall not be sold for less than the cost and without discrimination as regards price and quantity.

9. In case any municipal corporation, or any person, firm or corporation which shall contract with the Commission or with any municipal corporation for a supply of power furnished to the Commission by the Power Company shall suffer damages by the act or neglect of the Power Company, and such municipal corporation, person, firm or corporation would, if the Power Company had made the said contracts directly with them, have had a right to recover such damages or commence any proceedings or any other remedy, the Commission shall be entitled to commence any such proceedings or bring such action for or on behalf of such municipal corporation, person, firm or corporation, and notwithstanding any acts, decision or rule of law to the contrary, the Commission shall be entitled to all the rights and remedies of such municipal corporation, person, firm or corporation, including the right to recover such damages, but no action shall be brought by the Commission until such municipal corporation, person, firm or corporation shall have agreed with the Commission to pay any costs that may be adjudged to be paid if such proceedings or action is unsuccessful. The rights and remedies of any such municipal corporation, person, firm or corporation shall not be hereby prejudiced.

10. It is hereby declared that the Commission is to be a trustee of all property held by the Commission under this agreement for the corporations and other municipal corporations supplied by the Commission, but the Commission shall be entitled to a lien upon said property for all moneys expended by the Commission under this agreement and not repaid. At the expiration of this agreement the Commission shall determine and adjust the rights of the corporations and other municipal corporations supplied by the Commission, having regard to the amounts paid by them respectively under the terms of this agreement, and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor in Council.

11. If differences arise between corporations to whom the Commission is supplying power, the Commission may, upon application, fix a time and place to hear all representations that may be made by the parties, and the Commission shall, in a summary manner, when possible, adjust such differences, and such adjustment shall be final. The Commission shall have all the powers that may be conferred upon a Commissioner appointed under *The Act respecting Enquiries concerning Public Matters*.

12. If differences arise between the Corporation and the Commission, the Lieutenant-Governor in Council may, upon application, fix a time and place to hear all representations that may be made by the parties, and the Lieutenant-Governor in Council shall, in a summary manner, when possible, adjust such differences, and such adjustment shall be final. The Lieutenant-Governor in Council shall have all the powers that may be conferred upon a Commissioner appointed under *The Act respecting Enquiries concerning Public Matters*.

13. This agreement shall extend to, be binding upon, and enure to the benefit of the successors and assigns of the parties hereto.

In witness whereof the Commission and the Corporation have respectively affixed their corporate seals and the hands of their proper officers.

(Section 4).

This indenture made the day of in the year of
our Lord, one thousand nine hundred and fourteen.

Between

The Hydro-Electric Power Commission of Ontario (hereinafter called the "Commission") of the first part,

and

The Municipal Corporations of the Township of Scarborough, the Township of Markham, the Township of Whitchurch, the Township of Pickering, the Township of Uxbridge, the Township of Whitby, the Township of Reach, the Town of Newmarket, the Town of Uxbridge, the Town of Whitby, the Village of Markham, the Village of Stouffville and the Village of Port Perry, (hereinafter called the "Corporations") of the second part.

Whereas pursuant to *The Hydro-Electric Railway Act, 1914*, the Commission was requested to enquire into, examine, investigate and report upon the cost of construction and operation of an electric railway or railways to be constructed through certain districts in which the corporations are situated, together with the probable revenue that would result from the operation of such railway or railways;

And whereas the Commission has furnished the corporations with such a report showing (1) the total estimated cost, operating revenue and expenses of the railway or railways, and (2) the proportion of the capital cost to be borne by each of the corporations as set forth in schedule "B" attached hereto:

And whereas on receipt of the said report the corporations requested the Commission to construct, equip and operate a system of electric railways (hereinafter called the railway) over the routes laid down in schedule "A" attached hereto, upon the terms and conditions and in the manner herein set forth;

And whereas the Commission has agreed with the corporations on behalf of the corporations to construct, equip and operate the railway upon the terms and conditions and in the manner herein set forth; but upon the express condition that the Commission shall not in any way be liable by reason of any error or omission in any estimates, plans or specifications for any financial or other obligation or loss whatsoever by virtue of this agreement or arising out of the performance of the terms thereof;

And whereas the electors of each of the corporations have assented to by-laws authorizing the corporations to enter into this agreement with the Commission for the construction, equipment and operation of the railway as laid down in the said schedules, subject to the following terms and conditions;

And whereas the corporations have each issued debentures for the amounts set forth in schedule "B" attached hereto, and have deposited the said debentures with the Commission;

Now therefore this indenture witnesseth:—

1. In consideration of the premises and of the agreements of the corporations herein contained, and subject to the provisions of the said Act, the Commission agrees with the corporations respectively:—

(a)

(a) To construct, equip and operate the railway through the districts in which the corporations are situate on behalf of the corporations;

(b) To construct and operate the railway over the routes laid down in schedule "A";

(c) To issue bonds, as provided in paragraph 3 of this agreement, to cover the cost of constructing and equipping the railway.

(d) To furnish as far as possible first-class modern and standard equipment for use on the railway, to operate this equipment so as to give the best service and accommodation possible, having regard to the district served, the type of construction and equipment adopted, and all other equitable conditions, and to exercise all due skill and diligence so as to secure the most effective operation and service of the railway consistent with good management;

(e) To regulate and fix the fares and rates of toll to be collected by the railway for all classes of service;

(f) To utilize the routes and property of the railway for all purposes from which it is possible to obtain a profit;

(g) To combine the property and works of the railway and the power lines of the Commission where such combination is feasible and may prove economical to both the railway and the users of the power lines;

(h) To permit and obtain interchange of traffic with other railways wherever possible and profitable;

(i) To supply electrical power or energy for operation of the railways at rates consistent with those charged to municipal corporations;

(j) To apportion annually the capital costs and operating expenses of all works, apparatus and plant used by the railway in common with the Commission's transmission lines in a fair manner, having regard to the service furnished by the expenditure under consideration;

(k) To apply the revenue derived from operation of the railway and any other revenue derived from the undertaking to the payment of operating expenses (including electrical power), the cost of administration, and annual charges for interest and sinking fund on the money invested, and such other deductions as are herein provided for;

(l) To set aside from any revenue thereafter remaining an annual sum for the renewal of any works belonging in whole or in part to the undertaking;

(m) To pay over annually to the corporations, if deemed advisable by the Commission in the interests of the undertaking, any surplus that may remain after providing for the items above mentioned. The division of such surplus between the corporations to be fixed by the Commission on an equitable basis, having regard in the case of each corporation to the capital invested, the service rendered, the comparative benefits derived, and all other like conditions;

(n) To take active steps for the purpose of constructing equipping and operating the railway at the earliest possible date after the execution of this agreement by the corporations and the deposit of the debentures as called for under clause 2 (b) hereof and to commence operation of each section as soon as possible after its completion.

(o)

(o) To make such extensions to the railway described in schedule "A" as may appear advantageous and profitable from time to time.

2. In consideration of the premises and of the agreements herein set forth, each of the corporations for itself, and not one for the other, agrees with the Commission:—

(a) To bear its share of the cost of constructing, equipping, operating, maintaining, repairing, renewing and insuring the railway and its property and works as established by the Commission, subject to adjustments and apportionment between the corporations by the Commission from time to time;

(b) To issue debentures for the amounts set forth in schedule "B" maturing in fifty years from the date of issue thereof, and payable yearly at the Bank, at Toronto, Ontario. Such debentures shall be deposited with the Commission previous to the issuing of the bonds mentioned above, and may be held or disposed of from time to time by the Commission, as provided for in clause 4 hereof, in such amounts, at such rates of discount or premium, and on such terms and conditions as the Commission in its sole discretion shall deem to be in the interests of the railway, the proceeds of such debentures being used solely for the purposes herein contained. The amount of debentures of each corporation sold or disposed of from time to time shall be such proportion as may be fixed by the Commission of the total amount of debentures, due regard being given to the capital invested, the service rendered, the comparative revenue derived, and all other equitable conditions;

(c) To make no agreement or arrangement with and to grant no bonus, license or other inducement to any other railway or transportation company without the written consent of the Commission;

(d) To keep, observe and perform the covenants, provisoes and conditions set forth in this agreement intended to be kept and observed and performed by the corporations, and to execute such further or other documents and to pass such by-laws as may be requested by the Commission for the purpose of fully effectuating the objects and intent of this agreement;

(e) To furnish a free right of way for the railway and for the power lines of the Commission over any property of the corporations upon being so requested by the Commission, and to execute such conveyance thereof or agreement with regard thereto as may be desired by the Commission.

3. It shall be lawful and the Commission is hereby authorized to create or cause to be created an issue of bonds, and to sell or dispose of the same on behalf of the corporations. Such bonds to be charged upon and secured by the railway, and all the assets, rights, privileges, revenues, works, property and effects belonging thereto or held or used in connection with the railway constructed, acquired, operated and maintained by the Commission under this agreement, and to be for the total amounts mentioned in schedule "B" hereto attached; provided that the Commission may, upon obtaining the consent as herein defined of the majority of the corporations, increase the said bond issue by any amount necessary to cover the capital cost of extending the railway, and may also without such consent increase the said bond issue to cover the cost of additional works or equipment of any kind for use on the railway to an extent not exceeding ten per cent. (10%) of the bonds issued from time to time. In order to meet and pay such bonds and interest as the same becomes due and payable the Commission shall in each year after the expiration of ten years from the date of the issue of the bonds out of the revenue of the railway after payments of operating expenses (including electrical power)

power) and the cost of administration set aside a sufficient sum to provide a sinking fund for the purpose of redeeming the same at maturity. Debentures issued by the corporations in compliance with clause (2b) hereof, shall, to the extent of the par value of any bonds outstanding from time to time, be held or disposed of by the Commission in trust for the holders of such bonds as collateral security for payment thereof, it being understood and agreed that in the event of any increase of the said bond issue each corporation shall, upon the request of the Commission, deposit with the Commission additional debentures as described in clause 2 (b) hereof, to be held or disposed of by the Commission as collateral security for such increase of the said bond issue, and that any debentures held by the Commission in excess of the par value of the outstanding bonds from time to time may be held or disposed of by the Commission to secure payment of any deficit arising from the operation of the railway.

4. In the event of the revenue derived from the operation of the undertaking being insufficient in any year to meet the operating expenses (including electrical power), the cost of administration and the annual charges for interest and sinking fund on the bonds, and for the renewal of any works belonging in whole or in part to the railway, such deficit shall be paid to the Commission by the corporations upon demand of and in the proportion adjusted by the Commission. In the event of the failure of any corporation to pay its share of such a deficit as adjusted by the Commission, it shall be lawful for the Commission in the manner provided in clause 2 (b) to dispose of debentures held by the Commission as security for any such deficit. Any arrears by any corporation shall bear interest at the legal rate.

5. Should any corporation fail to perform any of the obligations to the Commission under this agreement, the Commission may, in addition to all other remedies and without notice, discontinue the service of the railway to such corporation in default until the said obligation has been fulfilled, and no such discontinuance of service shall relieve the corporation in default from the performance of the covenants, provisions and conditions herein contained.

6. In case the Commission shall at any time or times be prevented from operating the railway or any part thereof by strike, lock-out, riot, fire, invasion, explosion, act of God, or the King's enemies, or any other cause reasonably beyond its control, then the Commission shall not be bound to operate the railway or such part thereof during such time; but the corporations shall not be relieved from liability or payment under this agreement, and as soon as the cause of such interruption is removed the Commission shall, without any delay, continue full operation of the railway, and each of the corporations shall be prompt and diligent in doing everything in its power to remove and overcome any such cause or causes of interruption.

7. It shall be lawful for, and the corporations hereby authorize the Commission to unite the business of the railway with that of any other railway system operated in whole or in part by the Commission, and to exchange equipment and operators from one system to the other, proper provision being made so that each system shall pay its proportionate share of the cost of any equipment used in common.

8. If at any time any other municipal corporation applies to the Commission for an extension of the railway into its municipality the Commission shall notify the applicant and the corporations, in writing, of a time and place to hear all representations that may be made as to the terms and conditions relating to such proposed extension. If, on the recommendation of the Commission, such extension shall be authorized, without discrimination in favor of the applicant, as to the cost incurred or to be incurred for or by reason of any such extension, the Commission may extend
the

the railway upon such terms and conditions as may appear equitable to the Commission.

No such application for an extension of the railway into any municipality the corporation of which is not a party to this agreement shall be granted if it is estimated by the Commission that the cost of service of the railway to the corporations parties hereto will be thereby increased or the revenue and accommodation be injuriously affected without the written consent of the majority of the corporations parties hereto.

9. The consent of any corporation required under this agreement shall mean the consent of the council of such corporations, such consent being in the form of a municipal by-law duly passed by the council of the corporation.

10. The Commission shall at least annually, adjust and apportion between the corporations the cost of construction, equipment, operation, interest, sinking fund, and also the cost of renewing the property of the railway.

11. Every railway and all the works, property and effects held and used in connection therewith, constructed, acquired, operated and maintained by the Commission under this agreement and the said Act shall be vested in the Commission on behalf of the corporations; but the Commission shall be entitled to a lien upon the same for all money expended by the Commission under this agreement and not repaid.

12. Each of the corporations covenants and agrees with the other:—

(a) To carry out the agreements and provisions herein contained;

(b) To co-operate by all means in its power at all times with the Commission to create the most favorable conditions for the carrying out of the objects of this agreement and of the said Act, and to increase the revenue of the railway and ensure its success.

13. In the event of any difference between the corporations the Commission may, upon application, fix a time and place to hear all representations that may be made by the parties, and the Commission shall adjust such differences, and such adjustments shall be final. The Commission shall have all the powers that may be conferred upon a commissioner appointed under the *Act Respecting Enquiries Concerning Public Matters*.

14. This agreement shall continue and extend for a period of fifty years from the date hereof, and at the expiration thereof be subject to renewal with the consent of the corporations from time to time for like periods of fifty years, subject to adjustment and re-apportionment as herein provided for the purposes of this agreement as though the terms hereof had not expired. At the expiration of this agreement the Commission shall determine and adjust the rights of the corporations, having regard to the amounts paid or assumed by them respectively under the terms of this agreement, and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor in Council.

15. This agreement shall not come into effect until it has been sanctioned by the Lieutenant-Governor in Council.

In witness whereof the Commission and the Corporations have respectively affixed their corporate seals and the hands of their proper officers.

8. The cost of local improvements around the court house, gaol and registry office shall be considered as part of the cost of maintenance of county property.

9. The Town, when erected into a city, shall be entitled for its own use to the proportion of the Registrar's fees and emoluments payable to it under *The Registry Act*, but the Town shall pay to the County for such services and new books as may be required for the Town as provided by said Act.

CHAPTER 53.

An Act to Consolidate the Floating Debt of the
Town of Gravenhurst.*Assented to 8th April, 1915.*

Preamble.

WHEREAS the Municipal Corporation of the Town of Gravenhurst has, by petition, represented that it has incurred a floating debt which, with the necessary expenses connected with the passing of this Act, will amount to \$15,000, the particulars of which are as follows: \$4,100 being the amount of a judgment and costs recovered against the town by Garrioch & Godard for the cost of constructing a transmission line for the Hydro-Electric System of the town; \$800 for the extra cost of dam and sluice ways in connection with the Hydro-Electric System of the town in order to comply with the plans specified by the Hydro-Electric Power Commission of Ontario; \$9,000 by reason of the failure to levy in certain years in addition to the amount required to meet the payments in connection with certain debentures an amount sufficient and to make provision for the payment of teachers' salaries and other necessary expenditures in connection with the public schools (\$5,900 being represented by notes of the corporation given to the bank for advances and \$3,100 by a note given to a private individual for advances); \$1,000 for interest charges in connection with the foregoing items and also to cover the expenses in connection with the special Act and the issue of debentures thereunder; and whereas, owing to the high rate of taxation which has prevailed in the town for several years (partly owing to the failure of a certain manufacturing company to repay part of the moneys advanced to it by way of loan), it would be unduly oppressive on the ratepayers of the town to liquidate the said floating debt forthwith, in addition to meeting the current annual expenses of the municipality; and whereas it is expedient to grant the prayer of the said petition;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

Period of payment of debentures, interest and coupons.

3. The said debentures shall be payable in equal annual instalments of principal and interest, in such manner and of such amounts that the amount payable for principal and interest in any year shall be equal as nearly as may be to what is payable for principal and interest during each of the other years of the period within which the said debt is to be discharged.

4. The said corporation shall levy in each year during the period within which the said debt is payable, in addition to all other rates, a special rate sufficient to produce and pay the annual instalments of principal and interest falling due upon the said debentures.

Assent of electors not required. Rev. Stat. c. 192.

7. SCHEDULE REFERRED TO IN FOREGOING BY-LAW.

Agreement made the tenth day of March, A.D. 1913.

Between

The Hamilton Street Railway Company, hereinafter called
"The Street Railway Company," of the first part,

and

The Corporation of The City of Hamilton, hereinafter called
the "City Corporation," of the second part.

Whereas by by-law No. 624, passed on the 26th day of March, 1892, permission was granted by the City Corporation to the Street Railway Company upon and subject to certain conditions, provisos and agreements in the said by-law set forth to construct, maintain and operate an electric street railway upon and along certain streets in the City of Hamilton, and the rights and obligations of the Street Railway Company and the City Corporation under certain sections were interpreted by by-law No. 1064, passed the 14th day of November, 1910.

And whereas by by-law No. 955, passed on the 13th day of September, 1898, the City Corporation granted to the said Company certain further privileges upon and subject to certain conditions, provisos and agreements set forth in the said last mentioned by-law, which by-law was accepted by the Street Railway Company, by agreement dated the 13th day of September, A.D. 1898;

And

And whereas it is, in the opinion of the Council of the Corporation of the City of Hamilton, desirable that a street railway service should be provided in the streets and portions of streets hereinafter mentioned;

And whereas negotiations have taken place between the City Corporation and the Street Railway Company as to making certain extensions of the Hamilton Street Railway system, which the City Corporation desires to have made, as hereinafter provided;

Now this agreement witnesseth that for and in consideration of the premises and of the sum of one dollar of lawful money of Canada, now paid by each of the parties hereto to each other (the receipt whereof is hereby by each acknowledged), the parties hereto have covenanted and agreed, and do hereby covenant and agree each with the other as follows, that is to say:—

1.—(1) The Street Railway Company, subject to the stipulations hereafter contained, shall construct and complete the extensions and new lines, consisting of double tracks with the necessary cross-overs and all necessary poles and wires and overhead construction for the completion of such extensions and new lines on the trolley system upon the following streets and highways, it being understood that wherever in this agreement the name "Burlington Street" is used, it shall be deemed to include Gilkison Street and the Base Line which lies between the Broken Front Concession and the first concession of the Township of Barton; and wherever the name "Kenilworth Avenue" is used it shall be deemed to include the original allowance for road between lots Nos. 2 and 3 of the said Township of Barton, namely:—

(a) From the corner of James and Burlington Streets easterly along Burlington Street to Kenilworth Avenue.

(b) From the corner of Burlington Street and Kenilworth Avenue southerly along Kenilworth Avenue to Main Street, provided that the necessary consent can be obtained from the Township of Barton and the County of Wentworth.

(c) From the corner of Main Street and Kenilworth Avenue westerly along Main Street to Sherman Avenue, provided that consent can be obtained from the Township of Barton and the County of Wentworth, so far as it may be necessary.

(d) From the corner of Ottawa Street and Barton Street easterly along Barton Street to Kenilworth Avenue.

(2) All such extensions, new lines and works within the city shall be made under the supervision of and to the satisfaction of the City Engineer, and the provisions of the said by-laws Nos. 624, 955 and 1064, respecting the manner of construction shall, where practicable and not inconsistent with the terms hereof, be applied to the construction of such extensions, new lines and work.

2. The extensions and new lines above mentioned shall be commenced immediately upon Burlington Street being put in proper condition by the city corporation to receive the tracks, the City Engineer to determine such date and notify the Street Railway Company.

All such extensions and new lines shall be completed and in operation within sixteen (16) months from the date fixed by the City Engineer to commence work; provided, however, that in calculating said period of sixteen (16) months, the months of December, January, February and March, and the first fifteen days of April in any year shall not be counted, nor shall the time that may be lost through the operation of causes beyond the control of the Street Railway Company, such as hearings and proceedings of the Board of Railway Commissioners, delay in putting streets in proper

condition,

condition, strikes, and questions arising with the Corporation of the Township of Barton or the Corporation of the County of Wentworth as to the right to use Kenilworth Avenue.

3.—(1) If the Street Railway Company shall not proceed with all due diligence to make and complete such extensions and new lines, or shall not proceed with such diligence that such extensions shall be made and completed within the time above limited, the City Corporation, in addition to all ordinary remedies, such as application to the court or to the Ontario Railway and Municipal Board, shall, during the continuance of such default under this paragraph be entitled to collect from the Street Railway Company the full amount of the mileage provided for by said by-law No. 624 upon all such contemplated extensions and new lines within the city limits, but only and not until after thirty (30) days' notice shall have been given by the City Corporation under the authority of the City Council of intention to collect such mileage.

(2) Should the Street Railway Company fail to have the said extensions and new lines in operation as in this agreement provided, the City Corporation, in addition to all ordinary remedies as before mentioned, shall, during the continuance of such default, be entitled, notwithstanding anything in this agreement contained, to collect from the Street Railway Company the full amount of mileage upon works within the city limits as mentioned in the preceding paragraph.

4. The Street Railway Company shall construct double tracks on Main Street, between Sherman Avenue and the Delta, and may grant to the Hamilton Radial Electric Railway Company until the 22nd day of December, 1928, running rights over the tracks of the Street Railway Company on Main Street from the Delta to Sherman Avenue, and from the corner of Sherman Avenue and Main Street northerly along Sherman Avenue to King Street, and thence westerly along King Street to the Terminal Station, but not to interfere with the general street railway traffic. After the said 22nd day of December, 1928, all rights of the Hamilton Radial Electric Railway Company, granted pursuant to this agreement, to use the tracks of the Street Railway Company from the corner of Sherman Avenue and Main Street to the Terminal Station shall absolutely cease and determine, and the connections of the respective lines at the corner of Sherman Avenue and Main Street shall be taken up.

5. In the event of the Hamilton Street Railway being taken over by the City Corporation, and the City Corporation and the Hamilton Radial Electric Railway Company being then unable to agree as to the terms upon which the lines upon Main Street between Sherman Avenue and the Delta shall be used by the Hamilton Radial Electric Railway Company, such terms shall be determined by the Ontario Railway and Municipal Board or such other Board or Boards as may have jurisdiction in the premises, but nothing herein contained shall render it obligatory upon the City Corporation in such event to maintain the said lines on Main Street between the Delta and Sherman Avenue, and should the City Corporation in such event desire to remove the said lines on Main Street between the Delta and Sherman Avenue, the Hamilton Radial Electric Railway Company shall have no claim against the City Corporation, but may, at its own expense, relay its present single track or its equivalent upon the said portion of Main Street between Sherman Avenue and the Delta, it being understood that the rights granted to the Hamilton Radial Electric Railway Company pursuant to this agreement to use the specified portion of the street railway tracks are given in present substitution of their rights to own, maintain and operate the line of railway on Main Street between the Delta and Sherman Avenue.

6. The Hamilton Radial Electric Railway Company shall not carry, upon any portion of the street railway tracks on Main street between

between the Delta and Sherman Avenue, on Sherman Avenue between Main and King Streets, and on King Street between Sherman Avenue and Sanford Avenue, any passengers other than such as are being carried from a point on the line of their railway outside the present limits of the city or are being carried to a point on their railway beyond the present city limits, except with the consent by by-law of the City Corporation; nor shall they operate any freight train or freight car on Sherman Avenue between Main Street and King Street, or on King Street between Sherman Avenue and Sanford Avenue.

7.—(1) The rails to be laid on unpaved streets shall be standard Tee rail, weighing not less than 70 lbs. per yard.

(2) Such Tee rail shall be replaced by the Company's standard lip girder rail construction as the streets or portions of streets upon which such extensions are made are provided with any permanent pavement requiring a concrete or other similar permanent base.

(3) The space between the tracks commonly called the "devil strip" shall be five (5) feet in width.

(4) The word "pavement" in these specifications shall mean vitrified brick, stone blocks, Scoria blocks, or asphalt, and generally any street surface requiring for its foundation a concrete or other similar permanent base, and the words "paved" or "paving" shall be understood to refer to pavement as above defined.

8. The City Corporation shall grant to the Hamilton Radial Electric Railway Company, in fee simple ownership, a strip thirty-three (33) feet in width, measured south from the present northerly boundary of Burlington Street between Sherman Avenue and the westerly limit of the lane known as Harvey Lane, laid out along the division line between township lots No. 7 and 8, said strip colored red and marked "A" on the plan hereunto annexed, in exchange for a strip of land 66 feet in width immediately north of the present northerly boundary of Burlington Street, which strip is colored yellow and marked "B" on said plan, with such provision for crossing the strip marked "A" by vehicular and pedestrian traffic as is shown on said plan. The strip on the south side of strip "A" as colored green and marked "C" on said plan shall be retained as a highway.

9. To the extent that it is necessary to deal with the Corporation of the Township of Barton, or the Corporation of the County of Wentworth, the Street Railway Company shall not be under any responsibility whatever to the City Corporation in regard to the matters dealt with herein, but the Street Railway Company shall use due diligence in obtaining whatever consent is necessary to enable the Street Railway Company to carry out the provisions of this agreement.

10. The City Corporation shall assist the Street Railway Company in an application to be made to the Board of Railway Commissioners for Canada for a subway beneath the main line tracks of the Grand Trunk Railway Company at Kenilworth Avenue for vehicular, street railway and pedestrian traffic, and the Board of Railway Commissioners for Canada shall be asked to apportion the cost of this work between all parties interested.

11. All extensions and new lines within the city that may be built or laid by the Street Railway Company, pursuant to the terms of this contract, shall be made under the supervision and to the satisfaction of the City Engineer, or of such inspector or inspectors as he may appoint, and in accordance with and conformably to the grades laid by the City Engineer.

12. The Street Railway Company shall not be called upon to pay mileage (as provided by section 23 of by-law No. 624 aforesaid) in respect of any of the extensions or new lines to be built by the Street Railway Company pursuant to paragraph 1 of this agreement for a period of five years from the completion of such extensions and new lines; subject, however, to the provisions of paragraph 3 hereof, but after the expiration of the said period of five years the provisions of said section 23 shall apply.

 Town of Hanover, entitled "A by-law to provide for the borrowing of the sum of three thousand three hundred dollars to be expended in making, extending, improving and repairing streets and roadways in the said town in order to give employment to the unemployed citizens thereof," passed on the 16th day of October, 1914, and as set out in Schedule "A" hereto, is hereby confirmed and declared to be legal, valid and binding upon the said corporation and the electors thereof, and upon all parties affected thereby, notwithstanding any want of jurisdiction on the part of the said council to pass the said by-law and notwithstanding any defect in substance or form of the said by-law or in the manner of passing the same.

SCHEDULE "A."

BY-LAW No. 191.

A by-law of the Municipal Corporation of the Town of Hanover to provide for the borrowing of the sum of \$3,300.00 to be expended in making, extending, improving and repairing streets and roadways in the said town in order to give employment to the unemployed citizens of the said town.

Whereas a state of war exists at the present time in the British Empire and in other great nations, and by reason thereof business generally has been greatly affected and disarranged and many citizens of the Town of Hanover are now out of employment and cannot find work, and many of them will suffer from want and privation unless employment is found for them;

And whereas at a mass meeting of the citizens of the said town a resolution was passed requesting the council of the said municipality to provide employment for the unemployed citizens of the said town and for such purpose to borrow the said sum and to carry on municipal improvements;

And whereas the council of the said municipal corporation deem it expedient and have determined, in order to find employment for the unemployed citizens of the said town, that streets and roadways in the said town should be made, extended, improved and repaired and for such purpose that the sum of \$3,300.00 should be borrowed upon the credit of the said town;

And whereas the amount of the whole rateable property of the said Town of Hanover, according to the last revised assessment roll thereof, is \$1,081,479;

And whereas the amount of the existing debenture debt of the said municipality, exclusive of local improvement debts, is \$86,473.65, and no part of the principal or interest is in arrears;

And whereas the sum of \$3,300.00 is the amount of the debt intended to be created by this by-law;

And whereas the total amount required to be raised annually in each of the years 1915, 1916, 1917 and 1918 by special rate for paying the said debt and interest as hereinafter provided is \$198.00 for 1915, \$1,348.00 in 1916, \$1,429.00 in 1917 and \$901.00 in 1918;

Therefore the Municipal Corporation of the Town of Hanover enacts as follows:

1. That it shall be lawful for the said corporation to make, improve, extend and repair the streets and roadways in the said town.

2. That for the purposes aforesaid it shall be lawful for the Mayor and Treasurer of the said town to borrow for and upon the credit of the said municipality the sum of \$3,300.00, to be repaid in the years 1916, 1917 and 1918, with interest at the rate of 6 per cent. per annum payable yearly, and that such sum be borrowed from such persons, firms or corporations as will lend the same. And the Mayor and Clerk of the said town are hereby authorized and empowered to make, execute and give for and on behalf of the said municipality such promissory notes or other securities therefor as may be necessary for such purpose.

3. During the currency of the said promissory notes or other securities there shall be raised annually by special rate on all the

rateable

rateable property in the said town the sum of \$198.00 for the year 1915, \$1,348.00 for the year 1916, \$1,429.00 in 1917, and \$901.00 in 1918 for the purpose of paying the amount due in each year for principal and interest in respect to the said debt.

4. The Mayor of the said municipality is hereby empowered to make application to the Ontario Legislature for such amendment to *The Municipal Act*, or for a special Act on behalf of the said municipality by way of approval, confirmation and ratification of this by-law and of the powers authorized and to be exercised by virtue of same.

Enacted and passed the 16th day of October, 1914.

CHAPTER 62.

An Act respecting the Town of Orillia.

Assented to 8th April, 1915.

WHEREAS the Corporation of the Town of Orillia has Preamble.
by petition represented that certain lands, either now covered with water or formerly covered with water and since filled in, lie upon the borders of the corporate limits of the Town of Orillia, and the portions thereof in actual use and occupation have been assessed and treated as forming part of the said Town of Orillia, but are now alleged to be within the limits of the Municipality of the Township of Orillia, Southern Division; and it is desirable that such lands and lands covered by water immediately adjacent to the eastern and southern limits of the said town should be annexed to and incorporated in the same; and whereas the said Town of Orillia has by such petition further represented that the by-laws set out in the schedules to this Act have been duly passed by the council of the said town, and that By-law No. 588 set out in Schedule "A" hereto and providing for the borrowing of eighty-five thousand dollars upon debentures for waterworks purposes was duly submitted to and received the assent of the ratepayers of the said town; but that it has been found impracticable to sell the debentures authorized by said By-law No. 588 to the advantage of the municipality on account of the rate of interest being too low and the term of payment too long; and whereas by By-law No. 598, set out in Schedule "B" hereto, the Council of the said Town of Orillia authorized or purported to authorize the borrowing of the said sum of eighty-five thousand dollars for the same purposes and the issue of debentures of the said town repayable in five years instead of as provided in the said By-law No. 588, for the raising of a sinking fund for the partial payment of the debt secured by the said debentures and for payment of interest thereon at the rate of six per cent. per annum; and also authorized and provided for the deposit and hypothecation of the debentures authorized by said By-law No. 588 to secure the due repayment of the said debentures authorized by By-law No. 598; and whereas by By-law No. 599 set out in Schedule "C" hereto an agreement for the deposit and hypothecation of the said debentures

Rev. Stat.
c. 192.

tures authorized by By-law No. 588 with The Title and Trust Company, in accordance with the provisions of said By-law No. 598, was duly authorized and such agreement set out in Schedule "D" hereto has been entered into; and whereas it is further represented by such petition that it is expedient to authorize the issue and sale of the debentures authorized by said By-law No. 588 at any time within seven years from the date of passing of said By-law No. 588, instead of within the time limit fixed by the provisions of *The Municipal Act*, for the purpose of providing the moneys necessary for the payment and redemption of the said debentures authorized by said By-law No. 598; and whereas it is desirable that the said several by-laws, and the debentures issued or to be issued thereunder, and the said agreement with The Title and Trust Company should be validated and confirmed; and whereas it is expedient to grant the prayer of the said petition;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:

Annexation

in comput-
ing area in
annexing

(2) The lands or lands covered by water hereby annexed to the said Town of Orillia shall not hereafter be taken into consideration in computing the area of the said town upon any future application to "The Ontario Railway and Municipal Board" or other proper authority for the addition or annexation of further territory to the said Town of Orillia, and further territory may from time to time be annexed to the said Town of Orillia in the same manner and to the same extent as if the lands and lands covered by water hereby annexed were not part of the said town.

(3) The said lands or lands covered by water hereby annexed to the said town shall be attached to and form part of the ward or subdivision of the Town of Orillia upon which they front or abut, and the lines dividing the existing wards shall be produced in continuing straight lines to meet the new boundaries of the said town as hereby enlarged.

(4) The taxes heretofore collected by the said Town of Orillia for or in respect of the said lands or lands covered by water, or any part thereof, are hereby declared to have been legally collected, and the collection and payment thereof are hereby validated and confirmed.

2. By-law No. 588 of the said Town of Orillia, set out in Schedule "A" hereto, and all debentures issued or to be issued thereunder, and all assessments made or to be made, and rates levied or to be levied, for the payment of the said debentures are confirmed and declared to be legal, valid and binding upon the Corporation of the said Town of Orillia and the ratepayers thereof.

3. 4. The debentures and coupons authorized by said By-law No. 598 may be in the form set forth in Schedule "B" hereto, or to the like effect.

5. By-law No. 599 of the said Town of Orillia, set out in Schedule "C" hereto, and the agreement thereby authorized and made between the said Town of Orillia and The Title and Trust Company as set out in Schedule "D" hereto, are hereby confirmed and declared to be and to have always been legal, valid and binding upon the corporation of the said Town of Orillia.

Debentures
under By-
law 588
when not
to be
reckoned
as part of
debenture
debt.

Rev. Stat.
c. 192.

6. In calculating the debenture debt of the said Town of Orillia, as required under any of the provisions of *The Municipal Act*, or for the purpose of the recitals in future money by-laws of the said town, the debentures authorized by said By-law No. 588 shall not be considered or included until the said debentures or some part thereof shall have been actually sold and disposed of either by the Trust Company with whom the same may be hypothecated under the terms and provisions of the said By-law No. 598 or by the said town after the determination of such hypothecation, and then only to such extent and for such amount as such debentures have been actually sold and disposed of.

Inconsistent

not to
apply.

7. Any provisions in the Acts respecting municipal institutions in the Province of Ontario which are or may be inconsistent with the provisions of this Act, or any of them, shall not apply to the by-laws which are by this Act confirmed and validated; and no irregularity in form of the debentures, or any of them, authorized to be issued by the said by-laws hereby confirmed, shall render the same invalid or illegal or be allowed as a defence to any action brought against the corporation for the recovery of the amount of the said debentures and interest or any or either of them, or any part thereof.

Time for
sale of
debentures.

8. The said Town of Orillia, or in accordance with the terms of such hypothecation the Trust Company with which the debentures have been hypothecated under the provisions of By-laws No. 598 and 599, may issue and sell the debentures authorized by By-law No. 588 at any time within seven years from the date of the passing of said By-law No. 588, and may use the proceeds for the payment or redemption of the debentures issued or to be issued under By-law No. 598.

Increase

interest.

9. The Council of the said Town of Orillia may, with the approval of The Ontario Railway and Municipal Board, provide for increasing the rate of interest payable upon the debentures authorized by By-law No. 588 at any time when it may be deemed in the interests of the said municipality so to do.

2 Geo. V. c.

SCHEDULE "B."

BY-LAW No. 598.

For the purpose of raising by way of debentures the sum of eighty-five thousand dollars (\$85,000) to provide temporarily the moneys required for waterworks purposes, and for which an issue of debentures was authorized by By-law No. 588.

Whereas pursuant to an application of the Water, Light and Power Commission of the Town of Orillia, by-law No. 588, authorizing the borrowing of eighty-five thousand dollars (\$85,000) upon debentures for extensions to and improvements in the waterworks system of Orillia, was duly passed by the Council of this municipality on or about the 8th day of July, 1914, after receiving the assent of the electors of the Town of Orillia, as required by the provisions of *The Municipal Act*;

And whereas the plans and estimates of the extensions and improvements in the said waterworks, to make which the said sum of eighty-five thousand dollars (\$85,000) is required, have been submitted to and approved by the Provincial Board of Health, as appears by a certificate under the hand and seal of the Chairman and Secretary of the said Board dated May 20th, A.D. 1914;

And whereas it was provided by the said recited by-law that the said debentures should bear interest at the rate of five per cent. per annum, and should be repayable in twenty annual instalments, and that the sum of six thousand eight hundred and twenty dollars and sixty-two cents (\$6,820.62) should be levied in each year for a period of twenty years, by a special rate, in addition to all other rates upon all the rateable property of the municipality to discharge the several instalments of principal and interest accruing due on the said debentures as the same should become respectively payable according to a schedule forming part of the said recited by-law;

And whereas it has been found impracticable to sell the said debentures to the advantage of the Town on account of the rate of interest being too low and the term of payment too long, and it is expedient to increase the rate of interest upon the moneys to be borrowed for the purposes aforesaid to six per cent. per annum, and to issue debentures of the Town of Orillia repayable in five years instead of as provided in the said recited by-law No. 588, and to provide for a sinking fund for the partial payment of the debt secured by the said debentures hereby authorized, and for the levying and raising annually for the said sinking fund such sum as will be required to meet and pay the annual instalments of principal payable according to the terms of the said recited by-law No. 588 and the said schedule contained therein during the ensuing five years, and to provide for the sale at the expiration of the said term of five years of the debentures authorized by the said by-law No. 588, which shall not then have matured, for the purpose of raising the balance of the money required to meet the debentures hereby authorized at their maturity;

And whereas, according to the said by-law No. 588 and the schedule therein contained, instalments of the principal money of the said debentures would be due as follows:—

In the year A.D. 1915.....	\$2,570 62
In the year A.D. 1916.....	2,699 15
In the year A.D. 1917.....	2,834 11
In the year A.D. 1918.....	2,975 81, and
In the year A.D. 1919.....	3,124 00;

And whereas for the purpose aforesaid it will be necessary to raise annually by special rate, during the term of five years, the sum hereinafter mentioned to provide for the said sinking fund and for the interest on the said eighty-five thousand dollars (\$85,000) at the rate of six per cent. per annum;

And whereas it is expedient to provide for the deposit and hypothecation of the debentures so authorized by the said by-law No. 588 with some reliable trust company legally empowered to do business in the Dominion of Canada as security for the said debentures hereby authorized pending the final sale of the said debentures authorized by the said by-law No. 588, and until payment in full of the principal and interest to be assured by the debentures to be issued under this by-law;

And whereas it is the intention to apply to the Legislature of the Province of Ontario for legislation validating this by-law and the debentures to be issued hereunder; and in order to procure the immediate advance of the moneys required for the furtherance of said extensions and improvements in the said waterworks system pending the passing of such validating legislation it is necessary to hypothecate the said debentures authorized by the said by-law No. 588 to secure to the purchasers of the said debentures hereby authorized the moneys to be advanced by them and interest thereon pending the passing of such legislation; and it is desirable to authorize the deposit and hypothecation of such debentures as aforesaid with such trust company as trustee or agent for the purchasers of the debentures to be issued under this by-law, with authority to such trust company to sell and dispose of the said hypothecated debentures or so much thereof as may be necessary for repaying the purchasers of debentures issued under this by-law all principal money and interest owing to them should such validating legislation not be duly passed and come into effect on or before the first day of June, A.D. 1915;

And whereas the amount of the whole rateable property of the municipality, according to the last revised assessment roll of the said Town of Orillia, is the sum of three million five hundred and thirty-four thousand, six hundred and forty-five dollars (\$3,534,645);

And whereas the amount of the existing debenture debt of the said municipality (exclusive of the debentures authorized by the said by-law No. 588, none of which have been sold, and exclusive also of local improvement debentures, which amount to forty-six thousand five hundred dollars (\$46,500) is six hundred and seventy-six thousand nine hundred and three dollars and thirty-five cents (\$676,903.35), of which no principal or interest is in arrear;

Now therefore the Municipal Council of the Corporation of the Town of Orillia enacts as follows:—

1. That it shall and may be lawful for the Corporation of the Town of Orillia to borrow on the credit of the corporation the said sum of eighty-five thousand dollars (\$85,000) for the purpose above set out, and to issue debentures of the said town to the amount of eighty-five thousand dollars (\$85,000) in sums of not less than one hundred dollars (\$100) each, payable as to principal money on the first day of December, A.D. 1919, and bearing interest at the rate of six per cent. per annum, payable half-yearly during the currency of the said debentures.

2. That the said debentures as to principal and interest shall be payable at the Royal Bank in the Town of Orillia.

3. That it shall be lawful for the Mayor of the Town of Orillia, and he is hereby authorized and instructed, to sign and issue the said debentures and to cause the same and the interest coupons at six per cent. per annum, payable half-yearly, to be signed by the

said

said Mayor and the Treasurer of the said town, and the Clerk of the said municipality is hereby authorized and instructed to attach the corporate seal of the said town to the said debentures.

4. During the currency of the said debentures for the purpose of providing for the payment of the said debentures there shall be raised, levied and collected by a special rate upon all the rateable property of the said Town of Orillia, and over and above and in addition to all other rates and taxes in each year, the sum of five thousand one hundred dollars (\$5,100) for interest, and the sum of two thousand six hundred and twenty-five dollars (\$2,625) to provide a sinking fund for the partial repayment of the principal money of the said debentures.

5. That the said debentures may contain any clause providing for the registration thereof authorized by any statute affecting municipal debentures in force at the time of the issue thereof.

6. That it shall and may be lawful for the Mayor and Treasurer of the municipality to deposit and hypothecate the said debentures authorized by by-law No. 588 with The Title and Trust Company, or with any other reliable trust company empowered to do business in the Province of Ontario which may be chosen by resolution of the Council of the municipality as trustee and agent for the purchasers of the debentures to be issued under this by-law, to secure the due repayment of the principal and interest payable according to the terms of the said debentures hereby authorized, or so much thereof as may be issued and remain unpaid at the expiration of the said term of five years, within which the said debentures are to be payable, and to secure the repayment of any moneys advanced for the purchase of these debentures authorized by this by-law, with interest thereon at the rate of six per cent. per annum, on or before the first day of June, A.D. 1915, should this by-law and the debentures issued hereunder not be sanctioned and validated by an Act of the Province of Ontario duly passed and coming into effect on or before this date.

7. And that the said Title and Trust Company, or such other company as may be chosen, is hereby authorized and empowered to sell the said debentures authorized by by-law No. 588, or so much thereof as may be necessary at the expiration of the said period of five years if the said debentures authorized by this by-law are not duly paid at maturity, or may, with the authority and consent of the Council of the said municipality, sell the unmatured portion of the said debentures authorized by the said by-law No. 588 prior to or at the expiration of the said period of five years for the purpose of raising the money necessary to meet and pay the said debentures hereby authorized and the interest thereon at the maturity thereof, and the said Title and Trust Company or such other trust company is hereby similarly empowered to sell the said debentures authorized by by-law No. 588, or so much thereof as may be necessary at any time after the first day of June, A.D. 1915, should the proposed legislation validating this by-law and the debentures issued hereunder not be duly passed by the Legislature of the Province of Ontario and come into effect on or before the said first day of June, A.D. 1915.

8. In the event of the sale of the said debentures authorized by by-law No. 588 by such trust company at any time, such trust company is hereby authorized and empowered to repay to the various parties advancing the same or entitled thereto, all moneys advanced upon the security of the debentures to be issued pursuant to this by-law, or upon the security of the hypothecation of the said debentures authorized by by-law No. 588, with interest on the said advances at the rate of six per cent. per annum.

agreement or agreements with the said Title and Trust Company, or such other trust company as may be chosen, carrying into effect the provisions of this by-law.

An Act respecting the City of Peterborough.

Assented to 8th April, 1915.

WHEREAS the Corporation of the City of Peterborough has, by petition, represented that the council has by resolution passed at a regular meeting thereof, made a grant of \$10,000 to the Peterborough Patriotic and Relief Committee and desires to have the said grant authorized and confirmed; that the Peterborough Utilities Commission, which has charge of the waterworks and electric lighting and power system of the city, has represented to the council that in and in connection with the completion of the construction of the dam and power development of the waterworks system of the city and in the erection of a pumping station and the purchase and installation of the pumping units therein for the said waterworks system, necessary for the efficient supply of water for public and domestic use and the fire protection of the city an amount had to be expended in excess of the amount of the engineer's estimated cost thereof and further amounts were expended for the extension of water mains asked for by the council to parts of the city which otherwise would have had no fire protection and other necessary extensions and other permanent work over and above expenditures for which debentures have been issued have been made, which said amounts together are about the sum of \$80,000, and has requested the council to issue debentures for the purposes of repaying the said commissioners the amounts so expended, which the council is willing to do if thereunto authorized and for which authority the said council asks; that the said Peterborough Utilities Commission will require to improve and extend said waterworks and lighting and power systems and for that purpose to borrow money during the construction of the works by way of temporary advances to be repaid when the debentures for said work are issued, and it is desirable and necessary that provision should be made for such purposes; that by chapter 117 of the Statutes of the Province passed in the year 1912, as amended by chapter 114 of the Statutes of the said Province passed in the year 1913, and by chapter 87 of the Statutes of the said Province

in

in the year 1914, the Corporation of the City of Peterborough was authorized to acquire by purchase or expropriation the property and assets of the Peterborough Light and Power Company, Limited, in the City of Peterborough, and it was provided in said Act that if the sum to be paid therefor was not agreed on that the same should be determined by arbitration and the city has expropriated said plant and assets and no agreement having been come to as to the sum to be paid therefor an arbitration was held to ascertain said sum, and an award has been made; that a by-law was duly passed by the said council after being submitted to and approved of by the electors of the said city, to provide the sum of \$120,000 for the purchase and improvement of the said works, which said sum was that which the Hydro-Electric Power Commission of Ontario estimated would be required for that purpose and part of which said sum has already been expended for improvements that were immediately necessary in said plant, and it is necessary to raise an additional sum to pay the amount of the award of the arbitrators and the expenses of and incidental thereto, the said balance not being sufficient, and the council desires to be in a position to provide for same; that the Canadian General Electric Company, Limited, whose manufacturing establishment is situated in the City of Peterborough, having represented to the council that it contemplated engaging in the manufacture of electric locomotives at the said works provided a testing track of about two and one-half miles in length could be secured, the said council has arranged with the Grand Trunk Railway of Canada for a lease to the said company of a portion of the unused right of way of the said railway leading from Peterborough to Chemong Lake, and has also arranged with the city council and the Council of the Township of Smith, through part of which the said right of way extends, for the crossing of certain highways in said city and township, and it is desirable that such agreements with said city and township should be confirmed; and whereas the whole rateable property of the municipality is the sum of \$11,522,655 and the existing debenture debt, exclusive of local improvement debts payable by local special rates, is the sum of \$1,526,925.47, particulars of which are as follows: Waterworks \$512,000, Electric Lighting and Power Plant \$120,000, Local Improvements \$157,955.59, Public Schools \$230,150, Collegiate Institute \$74,269.88, Protestant Home \$10,000, General City Debentures \$422,550, and there is in the hands of the Peterborough City Trust the sum of \$376,371.87 as a sinking fund in respect of said debentures; and whereas it is expedient to grant the prayer of the said petition;

Preamble.

WHEREAS the Corporation of the Town of Preston has by its petition represented that in the year 1910 the said Town of Preston passed By-law No. 482, respecting frontage assessment for sewers built as local improvements and to regulate town sewers, which by-law provides, among other things, in section 3 thereof, set out in Schedule "A" hereto, that the corporation could assess and levy in accordance with the provisions of the said by-law, a uniform frontage tax of 85 cents per foot frontage upon all property benefited by certain sanitary sewers, which have been or may hereafter be constructed in the Town of Preston, and that the said amount shall be payable in thirty equal annual instalments of $5\frac{1}{2}$ cents each per foot frontage, and certain doubts have arisen as to the validity of this provision in said By-law No. 482; and whereas the said corporation has by its petition also represented that in the year 1910 the said Town of Preston passed By-law No. 483 respecting the construction of house sewer connections and in the said by-law it was provided in section 2 thereof, set out in Schedule "B" hereto, that the corporation could assess and levy in accordance with the provisions of the said by-law a uniform tax of $6\frac{1}{2}$ cents per lineal foot per annum over a period of thirty years upon all property benefited by the said house sewer connections, which have been or may hereafter be constructed in the Town of Preston, and certain doubts have arisen as to the validity of this provision in said By-law No. 483; and whereas in the years 1913 and 1914 the Corporation of the Town of Preston passed certain construction by-laws for the construction of certain concrete sidewalks on certain streets therein named, and in certain cases no notice was published, as required under section 11, chapter 58, 1 Geo. V., now consolidated under chapter 193, R.S.O. 1914, and subsequently on the 9th day of November, 1914, the municipal council of the said town duly passed a debenture by-law, numbered 650, specified in Schedule "C" hereto, to provide for borrowing \$2,115.34 upon debentures

to pay for the construction of the said concrete sidewalks on the streets in the said corporation mentioned in said By-law Numbered 650; and certain doubts have arisen regarding the validity of the said debentures to be issued under said By-law No. 650; and whereas in the year 1912, the Corporation of the said Town of Preston passed certain construction by-laws for the construction of a main sanitary sewer, cellar drain and lateral sanitary sewers upon the streets mentioned in By-law No. 651, specified in Schedule "C" hereto, and no notice was published as required under section 11, chapter 58, 1 Geo. V., now consolidated under chapter 193, R.S.O. 1914, and subsequently on the 9th day of November, 1914, the municipal council of the said town duly passed a debenture by-law, numbered 651, specified in Schedule "C" hereto, to provide for borrowing \$28,755.93 upon debentures to pay for the construction of the said main sanitary sewers and cellar drain and lateral sanitary sewers on the streets mentioned in said By-law No. 651; and certain doubts have arisen regarding the validity of the debentures to be issued under said By-law No. 651; and whereas in the year 1913 the Corporation of the said Town of Preston passed certain construction by-laws for the construction of a sanitary sewer and cellar drain house services on certain streets mentioned in By-law No. 652, specified in Schedule "C" hereto, and no notice was published as required under section 11, chapter 58, 1 Geo. V., now consolidated under chapter 193, R.S.O. 1914, and subsequently on the 9th day of November, 1914, the municipal council of the said town duly passed a Debenture By-law No. 652, specified in Schedule "C" hereto, to provide for borrowing \$10,766.71 upon debentures to pay for the construction of said sanitary sewers and cellar drain house services on the streets mentioned in said By-law No. 652, specified in Schedule "C" hereto; and certain doubts have arisen regarding the validity of the said debentures to be issued under said By-law No. 652; and whereas in the years 1909, 1910, 1911, 1912 and 1913 the Corporation of the Town of Preston incurred certain debts, set out in Schedule "D" hereto, which debts were incurred for necessary improvements, and the said municipal council consider that it would be unduly oppressive upon the ratepayers of the said corporation to levy the said amounts by taxation in addition to the necessary annual expenditures of the said town, that subsequently on the 11th day of November, 1914, the said municipal council duly passed Debenture By-law No. 653, specified in Schedule "C" hereto, to provide for the borrowing of \$12,000 upon debentures to pay for the said expenditures incurred as aforesaid; and certain doubts have arisen as to the validity of the said debentures to be issued under said By-law No. 653; and whereas, under Debenture

By-laws Nos. 650, 651 and 652, specified in Schedule "C" hereto, it is provided that the said debentures to be issued thereunder shall bear interest at the rate of 5 per cent. per annum; that the corporation has found it impossible to sell the said debentures without incurring a great loss, and the said corporation now desires to increase the said rate of interest under the said debentures to 6 per cent. per annum; and whereas it is expedient to grant the prayer of the said petition;

BY-LAW No. 653.

By-law to provide for borrowing \$12,000 upon debentures for the purpose of raising money to pay certain debts incurred by the Corporation of the Town of Preston.

Whereas the Corporation of the Town of Preston has incurred certain debts amounting to \$12,000, the particulars of which are as follows:—

	\$12,000 00

And whereas it was necessary for the Corporation of the Town of Preston to incur the said debts, and it is deemed by the Council of the said corporation that it would be unduly oppressive on the ratepayers of the corporation to levy the said amount by taxation in addition to the necessary annual expenses of the town;

And whereas the amount of the whole rateable property of the municipality, according to the last revised assessment roll, is \$2,539,187;

And whereas the amount of the existing debenture debt of the corporation, inclusive of local improvement debts secured by special rates or assessments, is \$373,382.26, and no part of the principal or interest is in arrear;

And whereas it is necessary to borrow the said sum of \$12,000 on the credit of the corporation and to issue debentures therefor bearing interest at the rate of six per cent. per annum, which is the amount of the debt intended to be created by this by-law;

And whereas it is expedient to make the principal of the said debt repayable in yearly sums during the period of twenty years of such amounts respectively that the aggregate amount payable for principal and interest in any year shall be equal as nearly as may be to the amount so payable for principal and interest in each of the other years;

And whereas it will be necessary to raise annually the sum of \$1,046.22 during a period of twenty years to pay the said yearly sums of principal and interest as they become payable respectively according to the terms of this by-law;

Therefore the Municipal Council of the Corporation of the Town of Preston enacts as follows:—

1. That for the purposes aforesaid there will be borrowed on the credit of the corporation at large the sum of \$12,000, and debentures shall be issued therefor in sums of not less than \$100 each, bearing interest at the rate of six per cent. per annum and having coupons attached thereto for the payment of interest.

2. The debentures shall all bear the same date and shall be issued within two years after the day upon which this by-law is passed, and may bear any date within such two years, and shall be payable in twenty annual instalments during the twenty years next after the time when the same are issued, and the respective amounts of principal and interest payable in each of such years shall be as follows:—

The debentures as to both principal and interest may be expressed in Canadian currency or sterling money of Great Britain at the rate of one pound sterling for each four dollars and eighty-six and two-third cents, and may be payable at any place or places in Canada or Great Britain or the United States of America.

4. The Mayor of the corporation shall sign and issue the debentures, and the same shall also be signed by the Treasurer of the corporation, and the debentures shall be sealed with the seal of the corporation. SCHEDULE "A."

By-Law No. 851.

A By-law to raise \$9,155 by the issue of debentures to pay for the construction of a certain cement pavement as a local improvement.

Whereas by a by-law of the City of Sarnia the Council determined, and by such by-law passed at a general meeting by a vote of two-thirds of all members thereof, declared that it was desirable to construct a cement pavement on Christina Street from Tecumseh Street to the south limit of the city, thence west to the River road; and also on Clifford Street from Christina Street westerly to the River Road as a local improvement;

And whereas the whole of the said pavement has been laid and the cost for each lineal foot thereof is the same throughout;

And whereas it has been ascertained and determined that the assessable real property fronting or abutting on said streets on which said pavement has been constructed between said limits has a frontage of 9,844 feet, as shown by the statement of frontage liable for assessment, all of which are immediately, directly, equally and especially benefited by said improvement, and the total assessed value of said assessable property for said improvement according to the last revised assessment roll is \$75,250;

And whereas the said cement pavement has been constructed and the total cost thereof payable by the City of Sarnia amounts to \$9,155, of which amount the city disburses \$3,662, being forty per cent. of the amount required to be raised to pay for said pavement, and which includes cost of constructing said pavement on street intersections, and the remaining \$5,493 is to be defrayed by the ratepayers, making in all \$9,155, which is the amount of the debt to be created by this by-law exclusive of interest, the said Council having by a by-law of the said city passed at a general meeting of the Council by a vote of three-fourths of all the members thereof provided that the said city should pay said forty per cent., there being no by-law such as is provided under the provisions of section 51 of *The Local Improvement Act* in existence in said city;

And whereas the probable life of the said pavement for which said debt is incurred, as certified by the Engineer for the City of Sarnia, is upwards of twenty years;

And whereas the Council of the said city has determined that the debentures to be raised by this by-law shall extend over the period of twenty years, and be payable in annual instalments to be of such amounts that the aggregate amount payable for principal and interest, computed on the unpaid principal at the rate of five and one-half per cent. per annum, shall be the same in each of the said twenty years;

And whereas the total assessed value of the whole rateable property of the City of Sarnia, according to the last revised assessment roll for said city, is the sum of \$6,523,756;

And whereas the present existing debt of the City of Sarnia secured by debentures is the sum of \$900,736.20, and no part of said sum or interest thereon is in arrear;

And whereas for paying off the said principal sum of \$9,155 and interest on the unpaid principal at the rate aforesaid it will be necessary to raise in each of the twenty years hereinafter men-

tioned

tioned by the adjoining ratepayers in general the following sums, that is to say:—

being the aggregate amount for principal and interest to be paid in each and every year according to the statute in such cases made and provided;

And whereas the amount required to be raised yearly for such period of twenty years by the ratepayers on said portions of said streets on which said improvement is constructed as aforesaid is the sum of \$459.65;

And whereas there are 9,844 feet of frontage of said assessable real property on the east and west sides of Christina Street and north and south sides of Clifford Street from Christina Street to the River Road, and on the street extending from Christina Street to the River Road at the south limit of said city according to said description especially benefited by said improvement upon which it will be required to charge yearly during the said twenty years an annual special rate of 4.67 cents per foot;

And whereas for raising the annual sum of \$306.43, being the city's share of the sum required to pay said debenture debt, it will be necessary to raise in each of the said twenty years, by special rate on all the rateable property in said city, a sum sufficient to meet same;

And whereas such debt to the extent of \$5,493 and interest is created on the security of the special rates settled by this by-law and on that security only and further guaranteed by the municipality at large, and the remainder of said debt \$3,662 and interest is created on the security of the municipality at large;

And whereas it is expedient to raise the said sum of \$5,493 by debentures of the Corporation of the City of Sarnia to defray said portion of the expense of said work to be borne by the adjoining properties and payable by local rates, and also the further sum of \$3,662, to defray said portion of the expense of said work to be borne by the city at large, making in all the sum of \$9,155 besides interest to be raised under this by-law;

And whereas it is advisable to issue the said debentures with coupons attached thereto for the payment of interest;

Therefore

Therefore the Municipal Council of the City of Sarnia enacts as follows:—

1. That the sum of \$9,155 shall be raised by a loan by the Corporation of the City of Sarnia (\$5,493 of which on the security of the special rates hereby imposed and on that security only, and further guaranteed by the municipality at large, and the balance, \$3,662, on the security of the municipality at large) and debentures amounting to \$9,155 in sums of not less than one hundred dollars each payable in the manner and for the amounts and at the time respectively set forth in the recitals hereto shall be issued by this corporation, and each debenture shall have coupons attached for the payment of interest provided to be paid under this by-law.

6. For to raise the annual sum of \$459.65 the ratepayer's share of said yearly payment in the last paragraph mentioned, a special rate of 4.67 cents per foot is hereby imposed during each of the twenty years on the following above-described property, that is to say, the real property fronting or abutting upon the lines described as follows, that is to say:—On Christina Street from Tecumseh Street to the south limit of the city, thence west to the River Road, and also on Clifford Street from Christina Street westerly to the River Road.

7. There shall be raised and levied in each year by special rate on all the rateable property in said municipality a sum sufficient to discharge \$306.43, being the city's share of the said several instalments of principal and interest accruing due on said debt as the same become respectively due and payable according to the provisions of this by-law.

8. During the period of twenty years, commencing from and after the 1st day of January, 1914, the above-described real property liable for special frontage rates under this by-law shall be exempt from all general rates or assessments for improvements and works similar to those above mentioned, save and except the costs of similar works and improvements at the intersection of streets and except such portions of the general rates as may be imposed to meet the costs of like works and improvements at street intersections and improvements opposite real property which is exempt from local assessment.

9. If at any time any of the owners of the said real property heretofore described, or of any part thereof, desire to commute the assessment imposed by this by-law by the payment of his or their proposed share or shares of the cost thereof as a principal sum in lieu thereof, he, she or they may so commute by the payment of

such

such sum as may be necessary to realize at the end of the currency of such respective debentures a sum equivalent to the balance then unpaid of said annual special rate thereon, and all moneys received in commutation thereof shall be invested by the Treasurer of this municipality from time to time as the law directs.

10. The amount of debentures authorized to be raised under this by-law is subject to consolidation by including the same in a collective or accumulative by-law to be hereafter passed, consolidating the same with other amounts authorized, or to be authorized by other local improvement by-laws, and under which consolidating by-law the required debentures to provide for the amounts to be raised under this and said other individual by-laws shall be issued in such consecutive issue as shall in said consolidating by-law be more particularly enacted in that behalf.

11. The said sum of \$9,155 when raised shall be used in the payment for said local improvement and work.

12. This by-law shall come into operation and take effect on the day of the passing thereof.

SCHEDULE "A."

SUBMISSION TO ARBITRATION.

Memorandum of agreement made this first day of March, 1914,
Between

The Corporation of the City of Sault Ste. Marie, hereinafter called the Corporation, of the first part;

and

Tagona Water and Light Company, hereinafter called the Company, of the second part.

Whereas by an offer dated first October, 1894, made by Messrs. Clergue and Douglas to the Corporation and accepted by the Corporation, it was agreed inter alia that the Corporation would grant to the Ontario and Sault Ste. Marie Water, Light and Power Company certain franchises for waterworks and electric light system in accordance with the terms, covenants and conditions set forth in the documents marked "A" and "B" attached to said offer;

And whereas the said franchises were granted respectively by two agreements each dated October 3rd, 1894, by the Corporation to said The Ontario and Sault Ste. Marie Water, Light and Power Company;

And whereas the said agreements were assigned by the said The Ontario and Sault Ste. Marie Water, Light and Power Company to Francis H. Clergue and E. V. Douglas by assignment in writing undated, and were subsequently assigned by said Clergue and Douglas to the company by assignment in writing dated the 24th day of November, 1894;

And whereas the said offer further provides in effect that if the Corporation shall not grant a renewal of said franchises the Corporation shall, upon request of the Company, purchase from the Company the waterworks and electric light system which the Company shall then own in the Town (now City) of Sault Ste. Marie, to be paid for at a valuation to be arrived at in the manner provided by sections 98 and 99 of chap. 164 of the Revised Statutes of Ontario, 1887;

And whereas the Corporation has expressed its intention not to grant a renewal of said franchises, and the Company have accordingly requested the Corporation to purchase the said waterworks and electric light system now owned by the Company at a valuation to be arrived at as aforesaid, which the Corporation has agreed to do;

And

And whereas said section 98 of said Revised Statutes provides that a municipal corporation shall pay for the works and property therein referred to at a valuation to be determined by arbitration in accordance with the provisions of *The Municipal Act*;

And whereas *The Municipal Act* (3 and 4 Geo. V, Ontario) provided that either party may appoint his arbitrator, and the arbitrator so appointed shall appoint the third arbitrator;

And whereas the Corporation has appointed M. J. Butler its arbitrator, and the Company has appointed W. H. Coverdale its arbitrator, and the said two arbitrators have appointed Frederick Stone the third arbitrator;

And whereas said section 99 of said Revised Statutes provides as follows:—"The arbitrators in determining the amount to be paid for such works and property shall first determine the actual value thereof, having regard to what the same would cost if the works should be then constructed or the property then bought, making due allowance for deterioration, wear and tear, and making all other proper allowances, and shall increase the amount so ascertained by ten per centum thereof, which increased sum the arbitrators shall award as the amount to be paid by the Corporation to the Company, with interest from the date of their award."

Now therefore this agreement witnesseth that in consideration of the premises and of the covenants, promises and agreements herein contained the Corporation and the Company hereby covenant, promise and agree each with the other as follows:—

1. The Company will sell to the Corporation, and the Corporation will buy from the Company, the waterworks and electric light systems now owned by the Company in the City of Sault Ste. Marie at the price or valuation to be determined by the above-named arbitrators, or their successors or substitutes (if any) appointed pursuant to the Statutes of the Province of Ontario in that behalf.

2. The Corporation and the Company will refer, and do hereby refer, the valuation of the said waterworks and electric light systems to the above-named arbitrators, who shall determine the amount to be paid for the said waterworks and electric light systems in accordance with the said section 99 of said Revised Statutes, and for purposes of said reference the Corporation and Company do hereby agree to furnish their respective arbitrators with a copy of this agreement, together with all schedules and plans attached thereto.

3. The plans, specifications and schedules hereto attached adequately, comprehensively and exclusively set forth the whole waterworks and electric light systems hereby agreed to be purchased by the Corporation from the Company, namely:—

Exhibit 1.—Inventory of water and electric light system as on April 30th, 1914.

Exhibit 2.—Inventory of water and electric light materials in stores as on April 30th, 1914.

Exhibit 3.—General plan of waterworks system as on April 30th, 1914.

Exhibit 4.—General plan of electric light system as on April 30th, 1914.

Exhibit 5.—Plan on a larger scale showing pumping and electric light station as on April 30th, 1914, on which is noted those portions of same which are to be removed by the Corporation.

3.—(a) The arbitrators shall, in their award, determine the amount of depreciation (if any) in the said systems due to ordinary wear and tear during the period intervening between the 30th day of April, 1914, and the first day of October, 1914, and shall provide therein for the valuation of any part thereof which may be partially or totally destroyed during said period.

4. The purchase price or valuation so ascertained by the arbitrators shall be paid by the Corporation to the Company on the first day of October, or within six months thereafter, and at the time of such payment the Company will, subject as hereinafter mentioned, deliver to the Corporation the said waterworks and electric light systems free from encumbrance as a going concern, together with all subsisting contracts with customers, and the Corporation will take over the said systems and operate the same, thereby performing said contracts.

5. Whereas parts of the said waterworks system and of the said electric light system are situated upon and within lands and buildings now owned by the Company, and the Corporation may not by the first day of October, 1914, have provided other suitable lands and buildings for the removal and installation of the said parts, and such parts may be necessary for the continuous operations of the said systems; therefore the Company will, if requested by the Corporation, secure permission for the Corporation to operate at its own risk and expense the said parts in their present locations on and after the first day of October, 1914, until not later than fifteen months thereafter to afford the Corporation sufficient time to provide such suitable lands and buildings, and, except for causes beyond its control, will during such time, secure for the Corporation sufficient power to enable the Corporation to properly operate the power pump used in connection with said waterworks system, and will secure for the Corporation sufficient electric current for said electric light system at such rates and upon such terms as may hereafter be agreed upon between the Corporation and the Company, or, in case of disagreement, as may be appraised by a sole appraiser chosen by the Corporation and the Company jointly, or in case they cannot agree upon a sole appraiser then by three appraisers, one to be chosen by the Corporation and one by the Company, and the third to be chosen by the other two appraisers.

6. Those portions of the said systems which are to be moved by the Corporation after the purchase thereof are indicated on the plans and identified in the exhibits hereto annexed, and the same are to be removed by the Corporation upon the request of the Company at any time after the first day of January, 1916.

7. The Company will keep strict account of the actual cost of all extensions, improvements, betterments, etc., made in relation to the said systems between the date of this agreement and the first of October, 1914, and the Corporation will pay to the Company, in addition to the amount awarded by the arbitrators, the said actual cost, plus ten per cent. thereof, as part of the purchase price of said system; provided, however, that the Company will not make any extensions excepting those already authorized and under way without first having the approval of the Corporation Engineer.

8. The Company will not add anything to its stores, except such additions as may be previously approved by the Corporation's Engineer, and will keep a strict account of everything added to and everything taken from the stores between the date of this agreement and the first day of October, 1914, and the same shall be taken into account and proper adjustment made therefor at the closing of the purchase, and the purchase price awarded by the arbitrators shall be accordingly increased or diminished as the case may be.

9. The accounts payable to the Company by customers as shown by the Company's books on first October, 1914, shall be turned over to the Corporation for collection, and the Corporation will use its best endeavors to collect the same, and will account to the Company monthly for collections made of accounts to the Company as aforesaid, and will make no charge for collection of accounts payable for the month of September, 1914, or for any such accounts which may be paid by customers voluntarily in the month of October, 1914, but for all other accounts payable to the Company as aforesaid and collected by the Corporation, the latter will make a charge of $7\frac{1}{2}$ per cent. of the various amounts collected.

10. All adjustments such as insurance, taxes, etc., shall be made and allowed as of the first day of October, 1914.

In witness whereof this agreement has been executed in the presence of

CHAPTER 75.

An Act to confirm certain By-laws of the Town of Sudbury.

Assented to 8th April, 1915.

WHEREAS the Corporation of the Town of Sudbury Preamble. has by its petition represented that on the first day of December, 1914, the Council of the said Corporation passed By-law No. 400 authorizing the issue of debentures for the sum of \$13,800.00, payable in twenty annual instalments of principal and interest during the twenty years next after the time when the same are issued for the purpose of paying the floating indebtedness of the said Town, amounting to \$13,800.00, of which the sum of \$11,920.00 was incurred owing to the fact that in striking the rate for the year 1913 provision was not made for expenditure made in improving the Copper Cliff Road, in street lighting maintenance, in electric light and waterworks maintenance, Board of Health expenditure and for accounts for advertising in connection with by-laws to be voted on and for other purposes, and the further sum \$1,880 was incurred owing to the fact that two instalments of principal and interest were not levied under By-law No. 275 in the years 1912 and 1913; that before the said By-law was passed it was submitted to the electors of the said Town for their assent and the majority of the votes cast were in favor of the by-law and after the said by-law was passed it was submitted to and approved of by The Ontario Railway and Municipal Board pursuant to the provisions of Section 295 of *The Municipal Act*; that doubts have arisen as to the power of the Council to borrow money by the issue of debentures to pay a floating debt incurred for the objects above stated or some of them and as to the validity of the said by-law and of the rates imposed thereby; and wherear the said Municipal Council has by its petition further represented that doubts have arisen as to the validity of By-laws Nos. 410 and 411 passed by the said Council on the 25th day of February, 1915, particulars of which are set forth in Schedule "B" hereto; that by reason of the doubts as

to the validity of the said by-law No. 400 the said Corporation has been unable to sell the debentures thereby authorized to be issued and are unable to pay off the said floating debt without levying a rate sufficient for that purpose in the year 1915, and the Council of the said Town are of the opinion that it would be inequitable and unduly oppressive upon the ratepayers to levy a rate sufficient for that purpose in one year; that by reason of the doubts as to the validity of the said by-laws set out in Schedule "B" hereto the said corporation has been unable to sell the debentures thereby authorized to be issued and are unable to pay off the loans made by it for the purposes of constructing the works therein referred to and that it is just and equitable that the said by-laws and the debentures issued or to be issued thereunder and the rates imposed thereby and to be levied thereunder should be validated and confirmed and whereas it is expedient to grant the prayer of the said petition;

Therefore, His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

By-law No.
400 of
Town of
Sudbury
confirmed.

1. By-law 400 of the Corporation of the Town of Sudbury set out as Schedule "A" hereto, and By-laws Nos. 410 and 411 specified in Schedule "B" hereto, are confirmed and declared to be legal, valid and binding upon the said Corporation and the ratepayers thereof; the rates imposed by and to be levied under said by-laws for the payment of the debts authorized by the said by-laws and the interest thereon, are also confirmed and declared to be valid and binding upon the Corporation of the Town of Sudbury and the ratepayers thereof.

Debentures
confirmed.

2. All debentures issued or to be issued or purporting to be issued under the said By-laws Nos. 400 and 410 and 411 or any of them, are confirmed and declared to be valid and binding upon the Corporation of the Town of Sudbury and it shall not be necessary for the purchasers of such debentures to inquire into the validity of the proceedings relating to the issue of the same or to see to the application of the purchase money therefor.

SCHEDULE "A."

BY-LAW No. 400.

A By-law to provide for the raising of \$13,800, for the purpose of paying floating indebtedness of the Town of Sudbury as hereinafter set forth.

Whereas provision was not made in striking the rate for 1913 to pay the sum of \$11,920.00 for expenditure made in improving the Copper Cliff Road, street lighting maintenance, electric light and water works maintenance; Board of Health expenditure, accounts for advertising in connection with By-laws to be voted on;

And whereas there was paid in 1912 and 1913 a further sum of \$1,880.00, being the amount of two instalments, which were not levied under By-law No. 275 for years 1912 and 1913;

And whereas the total amount of said floating indebtedness is \$13,800;

And whereas for the purpose of paying aforesaid indebtedness it will be necessary to issue debentures of the Town of Sudbury for the sum of \$13,800.00, bearing interest at a rate of 5% per annum as hereinafter provided, which is the amount of the debt intended to be created by this By-law, the proceeds of such debentures to be applied to pay off said floating indebtedness and to no other purpose;

And whereas it is desirable to issue said debentures at one time and to make principal of said debt payable by yearly sums during a period of twenty years, said yearly sums being of such respective amounts that the aggregate amount payable in each year for principal and interest shall be as nearly as possible equal to amount so payable in each of the other nineteen years of said period;

And whereas the total amount to be raised annually by special rate for paying said debt, and interest as hereinbefore provided, is \$1,107.34;

And whereas the amount of the whole rateable property in the Municipality according to the last revised assessment roll, is the sum of \$4,211,230.00;

And whereas the existing debenture debt of the Municipality is the sum of \$406,195.44, of which no part of the principal or interest is in arrears;

Therefore the Municipal Council of the Town of Sudbury enacts as follows:

1. The sum of \$13,800.00 shall be expended by the Town of Sudbury in paying a floating indebtedness of the Town of Sudbury aforesaid, and it shall be lawful for the Mayor of the Town of Sudbury to borrow from any person or persons, body or bodies corporate, the said sum of \$13,800.00 for the purpose aforesaid, and debentures shall be issued therefor in sums of not less than \$100 each bearing interest at the rate of five per cent. per annum and having coupons attached thereto for payment of interest.

2. The debentures shall all bear the same date and shall be issued within two years after the day on which this by-law is passed, and may bear any date within such two years, and shall be payable in twenty annual instalments during the twenty years next after the time when same was issued, and the respective amounts of

principal and interest payable in each of such years shall be as follows:

SCHEDULE "A."

Memorandum of Agreement made, in triplicate this twenty-sixth day of November, A.D. 1914.

Between

The Toronto Harbor Commissioners, hereinafter called the "Commissioners," of the first part;

and

The Corporation of the City of Toronto, hereinafter called the "City Corporation," of the second part;

Whereas, on November 13th, 1912, the Commissioners presented a report to the Board of Control outlining certain proposals and designs for the improvement and development of Toronto harbor and water front, and by Report No. 30 of the Board of Control it was recommended that Council intimate its willingness to undertake the work and obligations assigned to the Corporation in the said report, which recommendation was adopted by the Council on the 26th of November, 1912;

And whereas it is desirable that this agreement should be entered into defining the duties and obligations of each of the parties hereto with reference to carrying out the provisions of the said report;

And whereas the Commissioners are the owners of large parcels of land and land covered by water in and about the port and harbor of Toronto, which are not required for docks, wharves or harbor purposes;

And whereas by the said report it is proposed that certain of the said lands should be enjoyed by the inhabitants of the City of Toronto as open spaces, parks, drives, boulevards, gardens and for other civic purposes, and that certain of the said lands should be filled in, raised in grade, or otherwise improved, and that the said City Corporation should make certain annual payments hereinafter referred to, to the said Commissioners for reclamation and the use and enjoyment thereof;

And whereas a certain general plan hereunto annexed and identified by the signature of the parties hereto has been prepared by the Commissioners and submitted to the said City Corporation setting out as nearly as may be what is proposed to be done under this agreement;

And whereas in the course of the development of the harbor of Toronto and in the execution of the work and improvements shown upon the said plan, the said Commissioners will require to dispose of sand pumped from localities in vicinity of certain lands or lands covered by water to be reclaimed, filled in or improved as aforesaid, and the said Commissioners, on the terms hereinafter set out, have agreed to make such reclamation and improvements and to do such filling in the course of their work;

Now, therefore, for the above purposes amongst others, the parties hereto mutually agree for themselves and their respective successors and assigns as in the following articles set out:—

Article 1.—The Commissioners, at their own expense, but subject to payment by the said City Corporation of certain payments as hereinafter set out, will, as necessary retaining walls are built by the Government of the Dominion of Canada where outlined on the said plan and marked in red, and as the retaining and sea-wall

is built under Article 4 hereof, by the Commissioners for the said City Corporation, where outlined on the said plan in blue, fill and reclaim the land shown throughout said plan colored in green, to a height to be approved by the Park Commissioner of the said City Corporation as to the lands on Toronto Island, and to a height of at least eight feet above zero, according to the Harbor Master's gauge, as to the lands on the mainland.

Article 2.—And the said City Corporation by way of payment for the reclamation and for the use and enjoyment of the said lands and improvements, hereby agrees to pay to the Commissioners half-yearly for a period of forty years from the date of the expenditures herein provided for, interest at the rate of six per centum per annum on the amount expended by the said Commissioners in respect of the improvements and things set out in Article 1, plus ten per cent. thereon to cover overhead expenses, including engineering, contingencies and administration, which total expenditure is estimated to be not greater than \$3,270,571.42, and, upon payment of the said interest for the said period of forty years, payments to the said Commissioners shall cease and the City Corporation shall thereafter forever be entitled to the use and enjoyment of the said lands and improvements upon payment of the annual sum of one dollar to the said Commissioners.

Article 3.—As the work specified in Article 1 is proceeded with by the Commissioners, the Commissioners shall at the end of every three months furnish to the City Corporation a statement in detail certified by the Chief Engineer of the Commissioners of the work done by them during the preceding three months and of the cost thereof, and upon receipt of this statement by the City Corporation interest upon the amount expended and so certified shall commence and be payable to the Commissioners at the expiration of the ensuing three months' period and thereafter half-yearly on the basis provided in Article 2 hereof.

Article 4.—The said Commissioners will build at the expense of the said City Corporation a highway bridge at Cherry Street and a retaining and a sea-wall opposite the Exhibition Grounds, as shown on the said plan hereto annexed, at an estimated cost of \$289,520.

Article 5.—The said Commissioners will, as part of the water front park system and also at the expense of the said City Corporation, as the said lands in Article 1 are reclaimed, and as the lands in Article 7 are acquired or expropriated by the said City Corporation, construct bridges (except over the eastern and western entrances to Toronto Bay), a boulevard drive, walks and bridle paths, and other improvements—detailed plans whereof are to be prepared by the said Commissioners from time to time, which plans shall be subject to the approval of the said City Corporation. The estimated cost of the work to be executed under this article is \$1,325,783.80.

Article 6.—The said City Corporation will pay to the said Commissioners all money expended by the said Commissioners for all work, material, improvements and things called for by the provisions of Articles 4 and 5 hereof, plus ten per cent. thereon to cover overhead expenses, including engineering, contingencies and administration, which total expenditure is estimated to be not greater than \$1,615,303.80; all such payments to be made from time to time as and when the proper amount shall be certified by the Chief Engineer of the Commissioners and the Commissioner of Works of the said City Corporation on progress certificates. Notwithstanding any provision for accepting the certificate of the Chief Engineer of the Commissioners as to the work performed under this article and Article 3 hereof, the right is reserved to the City

Corporation to inspect, check and examine the work done and material supplied and to verify the correctness of the amount the City Corporation is required to pay, and the Commissioners shall on demand furnish all necessary information and afford every facility for such purposes.

Article 7.—The said City Corporation will expropriate or provide a strip of land having a minimum width of about 200 feet measured northerly at right angles from the top of the bank along the Lake Shore through South Parkdale from the west limit of Exhibition Park, and thence in a westerly direction as shown on the said plan to a point opposite the end of Cliff Road, for the purpose of providing the location for the said boulevard driveway referred to in Article 5 hereof.

Article 8.—On completion of each section of the said filling and reclaiming and other work and improvements agreed to be done by the said Commissioners for the said City Corporation under this agreement, the said Commissioners shall notify in writing the said City Corporation of the completion thereof, and the said City Corporation shall thereupon take over the maintenance of each section excepting the maintenance and operation of the bridges over the eastern and western entrances to Toronto Bay, the bridge over the channel four hundred feet in width leading to the turning basin, and the Cherry Street bridge, shown on said plan. In each year detailed plans shall be prepared by the Commissioners for the work proposed to be done by them during the ensuing year, which shall be subject to the approval of the said City Corporation.

Article 9.—This agreement is entered into on condition that legislation be granted by the Legislature of the Province of Ontario empowering the said City Corporation to enter herein; to validate and confirm the terms hereof, and to authorize issues of debentures from time to time without the assent of the duly qualified rate-payers to raise the sums of money necessary to give effect to the terms hereof.

In witness whereof the parties hereto have set their respective corporate seals by the hand of the Mayor and Treasurer of the said City Corporation, and the Chairman and Secretary of the said Commissioners, respectively.

Assented to 8th April, 1915.

Preamble.

CHAPTER 79.

An Act to Consolidate the Floating Debt of the
Town of Wingham.*Assented to 8th April, 1915.*

Preamble.

WHEREAS the Municipal Corporation of the Town of Wingham has, by its petition, represented that it has incurred a floating indebtedness of \$13,200, which has been incurred partly in executing works of a permanent and necessary character and partly through the failure of a manufacturing industry to repay moneys loaned to it by the said corporation by way of bonus. The particulars of the said floating indebtedness are as follows: \$3,577.45 for making extensions and improvements to the waterworks system of the town; \$1,251.15 for constructing a dam for the purpose of generating electric power for the purpose of domestic and commercial lighting; \$6,316.26 through the town having been called upon to pay \$600 a year for upwards of ten years through the failure of a manufacturing industry to repay to the town the loan made by way of bonus to it by the town in the year 1901; \$855.14 for the cost of a special audit of the finances of the town and the necessary expenses in connection with procuring this Act; \$1,200 for the settlement of a certain claim for damages made by one Margaret Caroline Hill against the said corporation for the death of her husband whilst working as an employee of said corporation; and whereas the said corporation, by its said petition, has further represented that to liquidate the said floating indebtedness forthwith in addition to meeting the ordinary necessary annual expenses of the municipality would be unduly oppressive to the ratepayers; and whereas the said corporation, by its petition, has prayed that the said debt may be consolidated and that the corporation may issue debentures for the amount thereof payable in thirty years after the issue thereof; and whereas the said corporation has also asked for authority to invest its sinking funds in any debentures issued under any by-law or by-laws passed in pursuance of this Act; and whereas it is expedient to grant the prayer of the said petition;

Therefore

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. The floating debt of the Corporation of the Town of Wingham is consolidated at the sum of \$13,200, and the said corporation may borrow by a special issue of debentures a sum not exceeding \$13,200 for the purpose of paying the said floating debt. Floating debt consolidated at \$13,200.

2. The said debentures shall be made payable in not more than thirty years from the date of issue thereof and shall bear interest at a rate not exceeding six per cent. per annum and may be issued either with or without coupons attached thereto for interest, and shall be payable at such place or places as the corporation may deem expedient. Term of payment of debentures and interest.

3. The said debentures shall be payable in equal annual instalments of principal and interest, in such manner and of such amounts that the amount payable for principal and interest in any year shall be equal as nearly as may be to what is payable for principal and interest during each of the other years of the period within which the said debts are to be discharged. Equal annual instalments of principal and interest.

4. The said corporation shall levy in each year during the period within which the said debt is payable, in addition to all other rates, a special rate sufficient to produce and pay the annual instalments of principal and interest falling due upon the said debentures. Special rate.

5. The proceeds of the said debentures shall be applied by the said corporation to the payment of the said indebtedness of \$13,200 and the costs of the special Act, and for no other purpose whatever. Application of proceeds of debentures.

6. It shall not be necessary to obtain the assent of the electors or ratepayers of the Town of Wingham to the passing of any by-law which shall be passed under the authority of this Act, or to observe the formalities in relation thereto prescribed by *The Municipal Act*. Assent of electors not required.

7. No irregularity in the form of the said debentures or any of them, or of any by-law authorizing the issue thereof, shall render the same invalid or illegal or be allowed as a defence to any action brought against the said corporation for the recovery of the said debentures or interest or any part thereof; and the purchaser or holder thereof shall not be bound to inquire as to the necessity of passing such by-law or issuing debentures, or as to the application of the proceeds thereof. Irregularity in form not to invalidate.

Treasurer
to keep
proper book
of account.

8. It shall be the duty of the treasurer for the time being to keep, and it shall be the duty of each of the members, from time to time, of the municipal council to procure such treasurer to keep, and see that he does keep, a proper book of account, setting forth a full and particular statement, so that the same shall at all times show the number of debentures which from time to time shall be issued under the powers conferred by the preceding sections, and the respective amounts, payment of which is hereby secured, and the times at which the said debentures shall respectively become due and payable, and the several amounts which shall, from time to time, be realized from the sales or negotiations of the said debentures, and the application which shall, from time to time, be made of the said amounts; and the said book of accounts and statement shall at all times, and at all reasonable hours, be open to the inspection of any ratepayer of the said town, and of any of the holders, from time to time, of the debentures which shall be issued under the powers hereby conferred or any of such debentures.

Investment
of sinking
fund in de-
bentures.

9. The said corporation may invest any part of its sinking funds raised for the purpose of redeeming other debentures of the corporation, in any debentures issued in pursuance of any by-law or by-laws passed under the authority of this Act.

CHAPTER 93.

An Act respecting the Church of the Holy Trinity,
Toronto.*Assented to 8th April, 1915.*

Preamble

WHEREAS on the thirty-first day of March in the year one thousand eight hundred and eighty-one, the Bishop of the diocese of Toronto executed the Declaration of Trust set out in the Schedule to this Act concerning certain property held by him and his successors in the See for the benefit of the Church of the Holy Trinity in the City of Toronto; and whereas it appears that the said property was acquired out of monies given for the purpose of building the said Church, and that no provision was made for maintaining the fabric of the said Church in repair; and whereas the said Declaration of Trust was not made in pursuance of any condition or agreement annexed to the donation of the said monies; and whereas by an Act passed in the Second Session of the Legislature of Ontario in the Sixty-second year of the Reign of Her Late Majesty Queen Victoria and chaptered 112, the Declaration of Trust was varied by providing that nine-tenths of the income of the Endowment of the said Church should thereafter be held by the said Bishop and his successors for the benefit of the Rector of the said Church and that the remaining one-tenth thereof should be paid to the Churchwardens of the said Church to be applied by them as therein provided towards the maintenance of the fabric of the said Church; and whereas since the passage of the said Act the income of the said Endowment has largely increased; and whereas the Churchwardens of the said Church have presented a petition praying that the trusts aforesaid may be further varied as hereinafter mentioned; and whereas the Bishop of the said Diocese of Toronto has concurred in the said petition and no opposition has been offered thereto; and whereas it is expedient to grant the prayer of the said petition;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. On and after the twenty-third day of April, 1915, the income of the Endowment of the said Church of The Holy Trinity, Toronto, after payment of all expenses incurred in the management of the said Endowment, shall be held by the Bishop of the Diocese of Toronto and his Successors upon trust as to four-fifths thereof for the payment of such stipends to the Rector of the said Church and to his Curates or Assistant Ministers, and to the Organist and other persons engaged in the work of the said Parish as shall be from time to time determined by the Vestry of the said Church with the consent and approval of the said Bishop, and in the event of there being any surplus of the said four-fifths of the said income not required for the payment of such stipends in any year the said surplus shall be accumulated by the said Bishop until the same shall be required for such purposes, and as to the remaining one-fifth of the said income to be paid to the Churchwardens for the time being of the said Church to be applied by them towards the maintenance of the fabric of the said Church and of the Vestry, Chapel, School House and other buildings used in connection therewith, and for making such additions to and alterations and improvements in the buildings and equipment thereof as shall be deemed necessary by the said Vestry with the approval of the said Bishop, and in payment of any debt now or hereafter to be incurred for the purposes of effecting any such repairs, additions, alterations and improvements as aforesaid, and in the event of any part of such one-fifth share of the said income not being required to be expended in any year for the purposes aforesaid the same is to be accumulated by the said Churchwardens until the same shall be so required and is to be expended by them for no other purpose whatsoever.

ment.

SCHEDULE REFERRED TO IN ANNEXED BILL.

To all to whom these presents shall come, I, Arthur, by Divine Permission, Bishop of Toronto, send Greeting:

Whereas by Indentures of lease and release, dated respectively on or about the twenty-first and twenty-second days of April, A.D. one thousand eight hundred and forty-six, and made between John Langstaff the younger, of the Township of Markham, in the County of York, Gentleman, of the one part, and the Honourable and Right Reverend John, Lord Bishop of Toronto (since deceased), of the other part, in consideration of twelve hundred pounds therein expressed to be paid to the said John Langstaff by the said John, Lord Bishop of Toronto, he, the said John Langstaff, did convey to the said John, Lord Bishop of Toronto, and his successors, all that certain parcel of land and premises situate, lying and being in the City of Toronto, in the County of York, being composed of part of lot number one on the south side of the street then called Newgate Street, but now known as Adelaide Street, more particularly described as follows: Commencing at the distance of three chains seventeen links from the north-west angle of the said lot on a course south sixteen degrees east at the centre of the block on the east side

of

of Yonge Street, then north seventy-four degrees east three chains seventeen links; then north sixteen degrees west fifty-one feet; then south seventy-four degrees west three chains seventeen links to Yonge Street; then south sixteen degrees east fifty-one feet to the place of beginning;

And whereas by a certain memorandum bearing date the thirty-first day of December, A.D. one thousand eight hundred and fifty-three, under the hand of the said late John, Lord Bishop of Toronto, it appears that the said sum of twelve hundred pounds in the said indenture or release mentioned was part of a sum of five thousand pounds sterling placed in his hands for the building and endowment of a church in his diocese, and that the above mentioned lands had been purchased by him as and for an endowment of the Church of the Holy Trinity, situate in Trinity Square, near Yonge Street, in the said City of Toronto, being the Church erected by the said Bishop in pursuance of the trust aforesaid;

And whereas the said above described lands are now vested in me as Bishop of Toronto for that purpose and no other, and it is expedient that the purpose for which the said lands are so held by me should be declared and made manifest;

Now, therefore, know ye that I, the said Bishop of Toronto, do hereby acknowledge and declare that the said lands and premises hereinbefore described were conveyed to my predecessor, the said John, Bishop of Toronto, and his successors, to the intent that the same should be held forever thereafter by him and his successors as Bishops of Toronto upon the trust that the rents, issues and profits thereof, after deducting all such charges and disbursements as may be incurred in the care and management of said property and in the execution of the said trust may be appropriated and applied towards the support of the Incumbent of that certain Church of the Church of England, otherwise called the United Church of England and Ireland, situated in Trinity Square, near Yonge Street, in the City of Toronto, called the "Church of the Holy Trinity," and I do declare that I and my successors, Bishops of Toronto, shall and will stand seized of and interested in all the said hereditaments and premises in trust and upon and for the uses, intents and purposes aforesaid and none other whatsoever.

In witness whereof I have hereunto set my hand and seal this thirty-first day of March, in the year of Our Lord one thousand eight hundred and eighty-one in duplicate.

Preamble

WHEREAS James Albert Ellis, of the City of Ottawa, in the Province of Ontario, has by his petition set forth that in England he was a bona fide clerk to solicitors for about five years prior to 1885; that for about fifteen years after that date, he was clerk to the late Alexander Ferguson, K.C., of the said City of Ottawa, until the death of the latter in 1900; and was then clerk for over three years to Caron & Sinclair, Barristers and Solicitors, of the said City of Ottawa; that for over thirteen years he acted as managing clerk and performed duties involving the management, without supervision, of litigation and conveyancing; that he also prepared and attended to the passage of numerous Private Bills through the Parliament of the Dominion of Canada; that for such last mentioned period he generally, as managing clerk, performed the usual and ordinary work of a Solicitor, and acted as a duly qualified legal practitioner; that he has also had a large and varied municipal experience, and has thereby acquired a good practical knowledge of municipal and other law; that he is unable to obtain admission to the Law Society of Upper Canada for want of passing the matriculation examination for some Ontario University; that he is also unable to attend the lectures prescribed for law students at Osgoode Hall in the City of Toronto; but that he is prepared to pass certain examinations in law; and whereas the said James Albert Ellis has prayed that an Act may be passed to enable the Law Society of Upper Canada to admit him to practise at the Bar of His Majesty's Courts in Ontario, and also to practise as a Solicitor in the Supreme Court of Judicature; and whereas the circumstances appear to be exceptional; and whereas it is expedient to grant the prayer of the said petition;

Therefore

Therefore His Majesty by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. It shall and may be lawful for the Law Society of Upper Canada, at any time hereafter, to admit the said James Albert Ellis to practise at the Bar of His Majesty's Courts in Ontario, and to practise as a Solicitor in the Supreme Court of Judicature for Ontario, on his paying the proper fees in that behalf, and on passing such examination as may be prescribed by the said Society, and without complying with any other requirements of the law or any other rules or regulations of the said Society in that behalf.

Assented to 8th April, 1915.

WHEREAS George Thomas Tuckett, late of the City of Hamilton, in the County of Wentworth, manufacturer, deceased, by his will dated the 18th day of April, 1911, appointed James Wilmot Lamoreaux and Sydney Chilton Mewburn to be the executors and trustees thereof, and thereby (amongst other things) devised and bequeathed unto his trustees all his residuary estate; and whereas the said George Thomas Tuckett died on the 29th day of January, 1913, without having altered or revoked his said will, which was duly proved on the 28th day of February, 1913, by the said James Wilmot Lamoreaux and Sydney Chilton Mewburn in the Surrogate Court of the County of Wentworth; and whereas the wife of the said George Thomas Tuckett predeceased him, and the said George Thomas Tuckett left him surviving three children only, namely, George Joseph Tuckett, Blanche Inez Bragg and Phyllis McNeil Tuckett, the last named of whom has since married and is now Phyllis McNeil Fraser; and whereas on the 24th day of April, 1913, an action was brought in the High Court Division of the Supreme Court of Ontario wherein George Joseph Tuckett and Blanche Inez Bragg were plaintiffs and James Wilmot Lamoreaux and Sydney Chilton Mewburn, executors of the will of George Thomas Tuckett, deceased; Arthur McFarland, Ada Lily Guy, Phyllis McNeil Tuckett and Virginia Tuckett Bragg, the last two named being infants under the age of twenty-one years, were defendants, to set aside said last will and testament on the grounds of incapacity of the said deceased and of undue influence exercised upon said deceased; and whereas on the 31st day of May, 1913, the said action having come on for trial before the Honorable the Chief Justice of the King's Bench, judgment was pronounced in the said action, a copy of which is set out as Schedule "A" hereto, and there has been no appeal from the said judgment; and whereas it is provided in and by the said judgment that the parties to the said action, or any of them, may apply further for directions as to how and when and among

among whom the division and distribution of the residuary estate of the said George Thomas Tuckett, deceased, among the grandchildren of the said George Thomas Tuckett should be made; and whereas the said James Wilmot Lamoreaux died on the 20th day of September, 1914; and whereas by his petition the said Sydney Chilton Mewburn has asked that an Act be passed declaring the said judgment final and conclusive and binding in all respects and declaring as to how and when and among whom the division and distribution of the residuary estate of the said George Thomas Tuckett, deceased, among the grandchildren of the said George Thomas Tuckett should be made, and the said George Joseph Tuckett, Blanche Inez Bragg and Phyllis McNeil Fraser and the official guardian representing the grandchildren of the said George Thomas Tuckett, deceased, whether born or unborn, have all concurred in and approved of the passing of this Act; and whereas it is expedient to grant the prayer of the said petition.
